Welcome to Blue Cross and Blue Shield of Illinois

We are pleased that you are a member. Review this guide to learn about programs and services that can help you get the most from your plan. Take advantage of preventive care that can help you have a healthier life. Be sure to call a Benefits Value Advisor (Customer Service) if you have any questions. We're here to help you!

A Benefits Value Advisor is Here to Help 24/7

A BVA is like a tour guide, helping to point you in the right direction.¹

One call can put you on a course for getting the most from your benefits.

How We Can Help

A BVA can show you how to save money on health procedures and tests, and also:

- Simplify complex benefit options, making them easier to understand
- Help you use your benefits more wisely and get better value

You'll get guidance for benefits, such as medical, behavioral health and other available coverage so you only need one call to get support. BVAs can also help you:

- Maximize your benefits
- Get cost estimates for various providers and procedures
- Schedule appointments
- With referrals to clinical staff and other programs
- With prior authorization

Contact Us 24/7²

Call the Customer Service number on the back of your member ID card before your next procedure.

You can also connect with a BVA via live chat any time—day or night.

Just follow these steps:

1. Register or log in to Blue Access for MembersSM at **bcsil.com/att**. If this is your first visit, register for BAMSM using the numbers from your member ID card.
2. From the website home page, click the "Chat Now" button.

You can also use the BCBSIL App

1. Download the app by texting **BCBSILAPP** to **33633**.³ Then, log in or register an account.
2. From the app dashboard, tap the "Contact Us" link and then tap "Start a Live Chat."

Prior authorization: Know What Your Plan Requires

Approval from your health plan may be required before some services may be covered, including certain outpatient procedures and surgeries, and for inpatient admissions.

Be sure to check your benefits information to see a more detailed list of services that require prior authorization. Your in-network provider will usually do this for you. It's a good idea to confirm with your provider that they have gotten the needed approval before you have the service.

For questions, call a Benefits Value Advisor using the Customer Service number on your ID card.

1. Benefits Value Advisors offer cost estimates for procedures and services from various providers and facilities. Lower pricing and cost savings are dependent on the provider or facility you choose. Benefits Value Advisors do not give medical advice. Talk to your doctor or health care professional about any health questions or concerns.

2. Excludes major U.S. holidays.

3. Message and data rates may apply. Terms and conditions and privacy policy at bcsil.com/mobile/text-messaging.

Your ID Card

After you enroll, you will get a member ID card in the mail. Show this ID card when you see a provider, go to a hospital or get care at another facility. The back of the card includes telephone numbers you may need, including the number to reach a Benefits Value Advisor (Customer Service).

Your ID card includes benefit plan details such as deductible and out-of-pocket maximum amounts.

Get your important information—including your ID card—on your phone by downloading the app. Text **BCBSILAPP** to **33633**.

Blue Cross Blue Shield Global Core

You're Never Far from Health Care Services — Even When You're Far from Home

Like your passport, always carry your member ID card with you when you travel or live abroad. Through the Blue Cross Blue Shield Global Core program, you have benefits for **emergency care** with access to doctors, hospitals and other health services in nearly 200 countries and territories around the world.

How Blue Cross Blue Shield Global Core Works

To take advantage of the Blue Cross Blue Shield Global Core program, review this information:

- **Before you leave home, contact BCBSIL for coverage details. Your coverage outside the United States may be different.**
- Always carry your member ID card.
- In an emergency, go directly to the nearest hospital.
- The Blue Cross Blue Shield Global Core Service Center (BlueCard® Access) is available 24 hours a day, seven days a week toll-free at **800-810-BLUE (2583)** or by calling collect at **804-673-1177**.

Call the Service Center in these situations:

- **You need to locate a doctor or hospital or need medical services.** An assistance coordinator, in conjunction with a medical professional, will arrange a physician appointment or hospital stay.
- **You need inpatient care.** After calling the Service Center, you should also call BCBSIL Customer Service for precertification or pre-approval. You can find the telephone number on the back of your ID card. This number is different than the Blue Cross Blue Shield Global Core Service Center number shown here.

Blue Cross Blue Shield Global Core is there if you need medical care outside the U.S.

The Blue Cross Blue Shield Global Core program was formerly known as BlueCard Worldwide®. Blue Cross, Blue Shield, the Blue Cross and Blue Shield symbols, BlueCard, BlueCard Worldwide and Blue Cross Blue Shield Global are registered service marks of the Blue Cross Blue Shield Association, an association of independent Blue Cross and Blue Shield plans.

You will need to pay up front for services. Then you can complete a Blue Cross Blue Shield Global Core international claim form and send it with the bill(s) to the Blue Cross Blue Shield Global Core Service Center at the address on the form. You can also submit your claim online or through the Blue Cross Blue Shield Global Core mobile app. The claim form is available from BCBSIL or online at [bcbsglobalcore.com](https://www.bcbsglobalcore.com).

GLOSSARY OF TERMS - We have described some of the terms used here to help you understand them, but you should make sure to read your benefit plan materials if you have questions.

Amount Billed: The amount your provider billed for the service(s) rendered.

Amount Covered (Allowed): Discounts, reductions, and amount covered (allowed) reflect the terms of your plan, and in the case of an in-network provider, the savings we have negotiated with your provider. Your deductible, coinsurance and copay are based on the allowed amount and the terms of your plan. Your share of coinsurance is a percentage of the allowed amount after the deductible is met.

Coinsurance: The percentage of the allowed amount you pay as your share of the bill. For example, if your plan pays 80% of the allowed amount, 20% would be your coinsurance.

Copay Amount (Also known as Copayment): The set fee you pay each time you receive a certain service. Some plans do not have copayments.

Deductible: The amount, if any, you must pay before we start paying contract benefits. You do not send this amount to us. We subtract this amount from covered expenses on claims you and health care professionals send us. Some services can be covered before the deductible is met.

Non-Participating Provider: An out-of-network provider who does not accept rates for services we set to keep your costs down.

Out-of-Pocket Limit (Maximum): Once you pay this amount in deductibles, copayments and coinsurance for covered services, we pay 100% of the allowed amount for covered services for the rest of the benefit period.

Participating Provider: An in-network or out-of-network provider who accepts agreed-upon rates for services.

Your Total Costs: This is the sum of your copay, deductible and coinsurance. It also includes any amounts not covered by your health plan. Amounts that a non-participating provider may bill you are not part of this.

Health Insurance Fraud: What You Should Know

Don't Be a Victim

Identifying Fraud

Commonly identified schemes involving providers include:

- **Misrepresenting services**
Intentionally billing procedures under different names or codes to obtain coverage for services that aren't included in a member's plan.
- **Upcoding**
Deliberately charging for more complex or more expensive services than those actually provided.
- **Non-rendered and/or "free" services**
Some providers intentionally bill for tests or services never provided. This can also mean that the provider offered "free" services to bill the insurance company for services not performed or needed.
- **Kickbacks, bribes or rebates**
Referring patients to a provider or facility where the referring provider has a financial interest.

Commonly identified member schemes include:

- **Identity swapping**
Allowing an uninsured individual to use your insurance card.
- **Identity theft**
Using false identification to gain employment and the health insurance benefits that come with it.
- **Non-eligible members**
Adding someone to a policy who is not eligible or failing to remove someone when that person becomes ineligible.
- **Prescription medicine and abuse diversion**
Controlled substances can be obtained through deception or dishonesty for personal use or sale "on the street." Prescription medications can be obtained through doctor shopping, visiting several emergency rooms or stealing doctors' prescription pads.

Fraud Affects Everyone.

Fraud may cost the health care industry (public and private payers) more than \$200 billion each year. This fraud may cause you to face rising premiums, increased copayments and deductibles, and the elimination of certain benefits.

Health Insurance Fraud: What You Should Know (continued)

BCBSIL Offers Tips for Fighting Fraud

- **Know your own benefits and scope of coverage.**
- **Review all EOB statements.** Make sure the exams, procedures and tests billed were the ones you actually had with the provider who treated you.
- **Understand your responsibility to pay deductibles and copayments,** and for what you can and cannot be balance-billed (an amount that your provider may bill you) once your claim has been processed.
- **Guard your health insurance card and personal insurance information.** Notify BCBSIL immediately if your card or insurance information is lost or stolen.
- **Sign and date only one claim form per office visit.**
- **Never lend your member ID card to another person.**
- **Don't give out insurance or personal information if services are offered as "free."** Be sure you understand what is "free" and what you or your insurance company will be charged for.
- **Ask your doctors exactly what tests or procedures they want you to have and why they are necessary before you have them.**
- **Be sure any referrals you receive from your network provider are to other network doctors or facilities.** If you're not sure, ask.
- **Monitor your prescription use.** Make sure the medications billed to your Pharmacy Benefit Manager are accurate.

Because Your Health Counts

It's Important to Know Where to Go For SmartER CareSM

If you aren't having an emergency, knowing where to go for medical care may help save you time and money.

You have choices for where you get non-emergency care — what we call SmartER Care Options. Use these places instead of the emergency room Plus, when you visit independently contracted in-network providers, you may pay less for care.

Your Doctor's Office

Your own doctor's office may be the appropriate place to go for non-emergency care, such as health exams, routine shots, colds, flu and minor injuries. Your doctor knows your health history and the medicine you take and can decide if you need tests or specialist care. Your doctor can also help you with care for chronic health issues, such as asthma or diabetes.

Retail Health Clinic

When you can't get to your regular doctor, walk-in clinics — available in many retail stores — can be a lower-cost choice for care. Many stores have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies and colds.

Urgent Care Center

These facilities can treat you for more serious health issues, such as when you need an X-ray or stitches. You will probably have a lower out-of-pocket cost than at an ER, and you may have a shorter wait.

Emergency Room

Any life-threatening or disabling health problem is a true emergency. You should go to the nearest hospital ER or call **911**. When you use the ER for true emergencies, you help keep your out-of-pocket costs lower.

Because Your Health Counts (continued)

Urgent Care or Freestanding Emergency Room

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers. They treat most major injuries, except for trauma, but costs may be higher. Unlike urgent care centers, freestanding ERs are often out of network and may charge patients up to 10 times more for the same services.¹ Below are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have the word “Emergency” in their name or on the building.

- Are open 24 hours a day, seven days a week.
- Are not attached to and may not be affiliated with a hospital.
- Are subject to the same ER member share which may include a copay, coinsurance and applicable deductible.

Need help finding a network provider?

Use Provider Finder at bcbsil.com/att or call the Customer Service number on your member ID card. If you need emergency care, call **911** or seek help from any doctor or hospital right away.

Knowing where to go for care can make a big difference in cost and time. Here's how your options compare:[†]
