

Confused About Where to Go for Care?

SmartER CareSM options may save you money.

If you aren't having an emergency, deciding where to go for medical care may save you time and money.

You have choices for where you get non-emergency care — what we call SmartER Care. Use this chart to help you figure out when to use each type of care.

When you use in-network providers for your family's health care, you usually pay less for care. Search for in-network providers in your area at **bcbsil.com** or by calling the Customer Service number on your member ID card.

24/7 Nurseline

- Available 24 hours a day, seven days a week
- 24/7 Nurseline* can help you identify options when you or a family member have a health problem or concern
- Call **800-299-0274** to speak with a nurse
- At no additional cost as part of your health plan

Virtual Visits

- Available 24 hours a day, seven days a week
- Access to care for non-emergency medical issues whether you're at home or traveling from almost anywhere
- Access to an independently contracted, board-certified MDLIVE[®] doctor at **888-676-4204**, online at **MDLIVE.com/bcbsil** or with the MDLIVE mobile app[†]
- Average wait time is less than 20 minutes
- Powered by MDLIVE

Doctor's Office

- Office hours vary
- Generally the best place to go for non-emergency care
- Doctor-to-patient relationship established and therefore able to treat, based on knowledge of medical history
- Average wait time is 18 minutes¹

Retail Health Clinic

- Based on retail store hours
- Usually lower out-of-pocket cost to you than urgent care
- Often located in stores and pharmacies to provide convenient, low-cost treatment for minor medical problems

Urgent Care Center

- Generally includes evenings, weekends and holidays
- Often used when your doctor's office is closed, and you don't consider it an emergency
- Average wait time is 16-24 minutes²
- Many have online and/or telephone check-in

Hospital ER

- Open 24 hours, seven days a week
- Average wait time is 35-49 minutes (variable)³
- If you receive emergency room (ER) care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- Multiple bills for services such as doctors and facility

Freestanding ER

- Open 24 hours, seven days a week
- Could be transferred to a hospital-based ER depending on medical situation
- Services do not include trauma care
- Often freestanding ERs are out-of-network. If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- All freestanding ERs charge a facility fee that urgent care centers do not. You may receive other bills for each doctor you see.⁴

If you need emergency care, call **911** or seek help from any doctor or hospital immediately.

* 24/7 Nurseline is not a substitute for a doctor's care. Talk to your doctor about any health questions or concerns.

[†] Internet/Wi-Fi connection is needed for computer access. Data charges may apply.

Urgent Care Center or Freestanding ER – Knowing the Difference Can Save You Money

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs may be higher. A visit to a freestanding ER often results in significantly higher medical bills than the rate charged by urgent care centers for the same services.

Here are some ways to know if you are at a freestanding ER:

- Looks like urgent care centers, but have the word “Emergency” in their name or on the building.
- Is open 24 hours a day, seven days a week.
- Is not attached to and may not be affiliated with a hospital.
- Is subject to the same ER member share which may include a copay, coinsurance and applicable deductible.

Find urgent care centers¹ near you by texting² **URGENTIL** to **33633**.
