## ***Introducing a Processing Change for Faster Turn-Around of Your Under-65 Applications***

Beginning in May, Blue Cross and Blue Shield of Illinois will be changing the vendor we use to obtain medical records as part of the underwriting process. The new vendor will be RSA Medical Group.

RSA Medical Group is expected to offer us two important advantages, namely:

- Faster turn-around time obtaining medical records;
- More frequent status updates on our requests.

An added benefit is that you, the Producer, will be able to receive more frequent updates through our Customer Service department at several points throughout the process. It will no longer be necessary to contact the vendor separately.

### ***Phone Interviews Also Moving to New Vendor***

We will also begin sending some of our underwriting phone interviews to RSA Medical Group beginning in May. In order to assure quality, this transition will proceed gradually over the next few months.

RSA Medical Group has extended service hours. They are as follows:

Monday through Friday: 8 am to 9 pm  
Saturdays: 9 am to 1 pm

As with the new medical records process, as we transition our phone interviews, you will be able to retrieve updates through our Customer Service department for your convenience.

We're excited about this new relationship and believe it will allow us to process your under-65 business faster and more efficiently. We'd appreciate your feedback on these changes and look forward to continuing to work with you.

## ***Introducing Form Number Changes for Your Sales Materials***

As part of an initiative to improve our supply management processes, we are introducing a new form numbering system for Blue Cross and Blue Shield of Illinois sales materials. The new numbers will be phased in over the upcoming months.

# PRODUCER UPDATE

For an example of this change, see the enclosed rate book. It used to be “OB3952” and is now 30048.0704 IL. As a general guideline, form numbers will no longer begin with “OB.” Instead, you can expect to see materials identified as being in the “30000” series.

Our supply requisition forms will be updated periodically in the near future to reflect these changes. In the meantime, continue to order materials as usual. No matter what the number, we’ll make sure your supply requests are filled in the timely manner you’ve come to know and expect from us. Thank you for your cooperation.
