

EDF2 Header Definitions

Field	Definition
DISP-HEADER-RECORD-IND	A one-byte field populated with a value of "H" which indicates a header record on the disposition file.
DISP-EXTERNAL-ADJ-ID	A unique ID assigned to each Fund by BCBSIL (i.e., LABOR999).
DISP-PRODUCTION-DATE	The actual day the file is created by the Fund (format = CCMMDDYY).
DISP-SEQUENCE-NUMBER	The numeric value indicating the order of multiple files in a single transmission.
DISP-VERSION-NUMBER	Indicates the file version a Fund is using. Currently there is only one version for EDF2 identified as "030."

EDF2 Trailer Definitions

Field	Definition
DISP-TRAILER-RECORD-IND	A one-byte field populated with a value of "T" which indicates a trailer record on the disposition file.
DISP-EXTERNAL-ADJ-ID	A unique ID assigned to each Fund by BCBSIL (i.e., LABOR999).
DISP-PRODUCTION-DATE	The actual day the file is created by the Fund (format = CCMMDDYY).
DISP-RECORD-COUNT	The total number of records contained between the header and trailer record of a disposition file.
