

Open Access for Patients and Providers

Blue Cross Group Medicare Advantage Open Access (PPO)SM is a national plan without network restrictions.

This retiree group plan offers members access to care from any providers nationwide who agree to see the member as a patient, accept Medicare assignment and will submit claims to Blue Cross and Blue Shield of Illinois (BCBSIL).

You may treat these members if you are a Medicare provider, regardless of your contract or network status with BCBSIL. That means you don't need to participate in BCBSIL Medicare Advantage networks or in any other BCBSIL networks. The only requirement is that you must accept Medicare assignment and will submit the claims to BCBSIL.

What You Need to Know about Open Access

- Members' coverage levels are the same inside and outside their plan service area nationwide for covered benefits.
- Referrals aren't required for office visits.
- Prior authorization may be required for certain services from Medicare Advantage-contracted providers with BCBSIL.
- **For reimbursement**, follow the instructions on the member's ID card and file claims with BCBSIL.
 - **Medicare Advantage-contracted providers** receive their contracted rate.
 - **Medicare providers who aren't contracted** for Medicare Advantage with any Blue Cross and Blue Shield (BCBS) plan receive the Medicare-allowed amount for covered services, less any member cost-share.*

If you have questions about eligibility, prior authorization or claims, call 1-877-299-1008. It's important to verify patient eligibility and benefits before every scheduled appointment.

We understand you can decide what patients you want to see, except in an emergency. If you agree to see a Blue Cross Group Medicare Advantage Open Access (PPO) plan member but don't have a contract with any BCBS plan, you should still send BCBSIL the bill to meet your obligations as a provider under Medicare assignment, per Centers for Medicare & Medicaid Services regulations.
