

Important Documents Checklist

Blue Cross and Blue Shield of Illinois has prepared this suggested list of key personal documents everyone should gather, then keep somewhere secure like a bank lock box or home vault. Be sure at least one trusted family member, friend and/or lawyer, estate planner, or financial adviser has a copy. Update this list at least once a year. Consider telling your doctor, insurance company, and others that need permission to divulge your personal data that you have designated another person to speak for you if you cannot speak for yourself.

Insurance

Include information for each individual policy. This is also a good time to look at the policy and decide whether you want to change any of the terms, including beneficiaries.
