Words to Know

**Benefits** – The health care items or services covered under a health insurance plan.

**Coinsurance** – The percentage of the cost you pay for a covered service, while your health plan pays the rest (after you meet your plan’s deductible). You pay coinsurance until you reach your out-of-pocket maximum, then your plan will pay 100 percent of the cost.

**Copayment (copay)** – The set dollar amount you pay for covered services at the time you receive care or when you pick up a prescription drug. The amount may be different depending on the covered service or prescription drug. See your Summary of Benefits and Coverage.

**Deductible** – The amount you pay for most covered services before your health plan starts to pay. The deductible resets at the beginning of the calendar year or when you enroll in a new plan. Some covered services may have a per-occurrence deductible.

**In network** – Services you receive are considered in network when you use a doctor or other health care provider that has a contract with your health plan. Generally, you may pay less out of pocket when you use a doctor, hospital, or other provider in your plan’s network.

**Out-of-pocket maximum** – This is the most you have to pay out of your own pocket for in-network health care expenses during a plan year. Deductibles, coinsurance, copays and other expenses for in-network essential health benefits (EHBs) apply to this amount.
Understanding Your Options

BCBSIL offers two different kinds of health plans — PPOs and HMOs. Here’s an overview of how these BCBSIL plans work.

**PPO**
- May have higher monthly premiums than HMO
- A network of doctors and hospitals to choose from

**HMO**
- May have lower monthly premiums than PPO
- May keep your costs lower and more predictable
- A Primary Care Provider (PCP) will coordinate your health care

Networks vary and may not include every doctor or hospital in your area, so it is important to research your plan’s network before you buy. Also, depending on where you live, some plans may not be available to you. Please visit [bcbsil.com](http://bcbsil.com) or call 800-477-2000 for more information.

Health Plans to Fit Every Budget

We have three levels of health care plans available — bronze, silver and gold. Each plan has different benefits and costs, so be sure to choose the one that fits your needs best. All plans include the same essential health benefits.

**BRONZE PLANS**
- Lowest premium costs
- Higher out-of-pocket costs when you receive care

**SILVER PLANS**
- Higher premium costs than Bronze plans
- Lower out-of-pocket costs than Bronze plans

**GOLD PLANS**
- Higher premium costs than Silver plans
- Lower out-of-pocket costs than Silver plans

The percentages shown reflect the average total cost for members, including all deductibles, copays and coinsurance. Your actual costs and ratios may vary based on your specific plan and usage. Please refer to the Summary of Benefits for more information.
Is a Health Savings Account (HSA) Right for You?

An HSA is a special savings account that you may use to cover a wide range of qualified medical expenses. An HSA helps you to take charge of your health and be responsible for how you spend your health care dollars. For many people, using an HSA is an effective way to help manage the costs of health care. Not all plans are HSA compatible. Visit bcbsil.com or speak with an independent, authorized agent to learn more.

Notice: If you get cost-sharing reductions under your health plan that have the effect of reducing the deductible below the federal government's minimum deductible, you may not be eligible to contribute to a Health Savings Account.

** As a reminder, a Health Savings Account (HSA) has tax and legal ramifications.
