

## In-Network Pharmacy Vendors (Pharmacy Benefit)

Specialty and complex care drugs that are FDA-approved for self-administration are typically covered under the member's pharmacy benefit. Some members' plans may require them to obtain these medications from in-network pharmacy providers for benefit consideration and will not provide benefits for any self-administered drugs dispensed by a physician. Please call the phone number on the member's ID card to verify coverage, or for further assistance or clarification about your patient's benefits.

Please note: Before these drugs may be covered, additional review and prior authorization may be required.

Below is a list of in-network pharmacy providers for services covered under the member's pharmacy benefit.

| Pharmacy                                       | Products/Plan                                                | Contact Information                                                                                           |

## IntegratedRx™ Network Pharmacies

With IntegratedRx™, members have the option to receive their oral oncology, cystic fibrosis and companion medicines through the clinic's integrated pharmacy, where the provider and pharmacist are part of the same team, allowing for direct lines of communication.

Some restrictions may apply. In-network pharmacies for specialty and complex care medicines can include participating specialty, home delivery or retail pharmacies.

The relationship between BCBSIL and the pharmacies is that of independent contractors.
