Preventive Care Coverage at No Cost to You

Effective Jan. 1, 2022

Your health plan may provide certain contraceptive coverage as a benefit of membership, at no cost to you when you use a pharmacy or doctor in your health plan’s network. There is no copay, deductible or coinsurance, even if your deductible or out-of-pocket maximum has not been met. Some examples of contraceptive drugs and products that may be covered under your plan are on this list. They will be reviewed from time-to-time and are subject to change. Coverage for contraceptives can vary depending on the type of plan you are enrolled in, as well as your prescription drug list. If you are using a contraceptive not listed under the Contraceptive Product Coverage, then copays, coinsurance or deductible may apply. Check your drug list or call the number listed on your member ID card to find out what products are covered at no cost share under your plan.

CONTRACEPTION*

• The following contraceptive items and services may be covered under the medical or pharmacy benefit without cost-sharing when provided by a pharmacy or doctor in your health plan’s network. This list is not all inclusive. Additional products may be covered at no additional cost.

• One or more prescribed products within each of the categories approved by the FDA for use as a method of contraception

• FDA-approved contraceptives available over the counter (i.e. foam, sponge, female condoms), when prescribed by a physician

• The morning after pill

• Injections such as IM DEPO-PROVERA and DEPO-SUBQ PROVERA 104 may be covered under the medical or pharmacy benefit

• Medical devices such as diaphragms, cervical caps and contraceptive implants may be covered under the pharmacy or medical benefit

• Female sterilization, including tubal ligation and tubal implant

• Male sterilization

*Some of these products may be covered under your medical benefit if provided by a doctor in your health plan's network. Most generic drugs listed are followed by a reference brand drug in parentheses. The brand name drug in parentheses is listed for reference and may not be covered under your benefit. This list is not all inclusive. Additional products may be covered at no additional cost.

*Prescription coverage for contraception may vary according to the terms and conditions of the plan and prescription drug list. A prescription may be required for coverage without cost-sharing under the pharmacy benefits for non-grandfathered plans. If your contraception product is not listed, check your prescription drug list or ask your doctor about therapeutic alternatives. Your doctor can also submit a coverage exception from BCBSIL (unless you have a benefit exclusion) for products not covered on your prescription drug list.

*Certain group health plans established or maintained by organizations that qualify as religious employers may be exempt. These services may be covered under a plan's Pharmacy benefits.

This information is for informational purposes only, does not constitute legal or other advice and should not be relied upon to determine coverage. Affordable Care Act regulations provide for an exemption from the requirement to cover contraceptive services for certain group health plans established or maintained by organizations that qualify as religious employers. Also, federal regulatory agencies have established an accommodation for religious affiliated eligible organizations, in which case separate payment may be available for certain contraceptive services. For more information about the religious employer exemption or eligible organization accommodation, please contact us at the phone number on your member ID card.
