# Elderly Waiver

## Introduction

Thank you for being a member of Blue Cross Community Health Plans<sup>SM</sup>. We are here to provide quality health care for you and your family. Our goal is to serve your health needs through all of life's changes.

This booklet has important information for members who are 60 years of age or older and might need nursing facility level care. If you qualify, the Illinois Department of Aging has waiver services to help you live as independently as possible. These services are in addition to your medical and behavioral health benefits. See your Member Handbook for an explanation of these benefits.

**Over-the-Counter Drugs and Supplies** OTC drugs and supplies are medicines and items you buy at the pharmacy without a prescription. As a BCCHP member, starting 2022, you can order \$25 in approved OTC items one time quarterly (every three months) at no cost to you. Benefit amounts will not roll over to the next quarter. You can view the OTC Catalog at [www.bcchpil.com](http://www.bcchpil.com). You can place an order online at [www.mpaotc.com](http://www.mpaotc.com). First time users will need to register an account. You can also place an order by calling Member Services at **1-877-860-2837**. Your order will be shipped at no cost to your address within 7 to 10 days.

## Eligibility

You can get Elderly Waiver services if:

- You are a U.S. citizen or legal alien and a resident of Illinois;
- You are eligible for Medicaid;
- You are 60 years of age or older and need a nursing facility level of care;
- Your service needs must be cost-effective;
- The nursing facility level of care must be safely maintained through your new waiver services.
- You must have a Determination of Need (DON) score of 29 or higher. You will be evaluated and scored by a state appointed assessor and will then receive an Individual Service Plan (ISP). The ISP defines the individual services and the approved number of hours for those services during the ISP certification period.

For additional information regarding the Illinois waivers programs as alternatives to nursing homes, please visit: <https://hfs.illinois.gov/medicalclients/hcbs.html> or call **1-217-524-7245**.

## Determination of Need (DON)

To see if you qualify for waiver services, a care manager from a State of Illinois agency will conduct a Determination of Need (DON) in your home. You will be asked about your ability to complete daily activities, like:

- Eating
- Bathing
- Grooming

- Dressing
- Preparing Meals
- Managing Money
- Laundry and Housework

These are just a few examples of the activities considered to determine your need for additional assistance. The DON produces a score from 0 to 100. The higher the score, the higher the demonstrated need. You must have a DON score of 29 or higher to qualify.

Blue Cross Community Health Plans does not conduct the DON. This is done by staff of the Illinois Care Coordination Units or the Division of Rehabilitation Services. We will work with these agencies for your annual reassessment.

# Care Coordination and Care Plan Information

## Your Care Plan Team

Your care plan team may include many different people (with your permission) including:

- You
- Your family
- Your doctor (Primary Care Provider)
- Behavioral health provider
- Pharmacist
- Homemaker
- Community partners such as church members
- Your Care Coordinator
- Others you want to include in your care team

Team members are there to help you get the services you need. They will help you make decisions about your care and work with you to reach your health care goals. Your Care Coordinator will help lead the team to make sure all your needs are met. This begins with a complete assessment of your needs. The care coordinator will review your current needs, services currently in place and identify additional in home or community support services that would improve your health. Your Care Coordinator will visit you at least once every 90 days while you are on the Elderly Waiver. Your Care Coordinator will help you make changes to your plan to reflect your changing needs.

Members are asked to complete a Health Risk Screening (HRS) at least annually. Your Care Coordinator will work with your health plan to help you manage your care. They will be your health care “coach”. They will oversee the plan of care you and your Care Team decide is right. Care coordinators can help you reach your health goals using your benefits.

Your care coordinator will also:

- Plan in-person visits or phone calls with you
- Listen to your concerns
- Help you get services and find health issues before they get worse (preventive care)
- Help set up care with your doctor and other health care team members
- Help you, your family and your caregiver better understand your health condition(s), medications and treatments

Your care coordinator and Care Team will help you get the information and care you need to be healthy. And they will help you manage your health condition. This includes:

- Tips on how to help manage your weight, eat better and stay fit with an exercise program
- Brochures with heart-healthy tips on how to help control blood pressure and cholesterol
- Brochures on drugs and alcohol show you how to stop problems before they start
- Well care with tips about healthy behaviors and the need for routine exams, mammograms and cancer screenings

- Information about managing on-going medical conditions such as asthma, diabetes, and heart disease

If you did not receive a health risk screening (HRS) and would like to complete one, or if you want to inquire about care coordination services, please call Member Services.

You can contact your Care Coordinator by calling Member Services at **1-877-860-2837** (TTY/ TDD: **711**). It is important that you keep in touch with your Care Coordinator for help with services. Be sure to write down the name and phone number of your Care Coordinator. Your Care Coordinator will work with the State of Illinois care coordinator who completes your DON. Together they will make sure you have the services you need to meet your health goals.

You can access the member web portal at [www.bcchpil.com](http://www.bcchpil.com).

Members with moderate levels of risk are contacted by a care coordinator that specializes in the management of that condition. If you are enrolled in the program, you work with your care coordinator to develop specific goals with the purpose of improving your overall health.

The care coordinator provides:

- education and materials related to your diagnosis
- assistance with understanding and obtaining medications
- education regarding available benefits that would improve your health outcomes

## **Hospital or Nursing Home Admission**

If you are entering a hospital, nursing home or other institution for any reason, you or your representative should inform your Blue Cross Community Health Plans Care Coordinator before or as soon as possible after you have entered such a facility. Your services cannot be provided while you are in these facilities, but can be provided as soon as you return home. Inform your Blue Cross Community Health Plans Care Coordinator when you will be discharged home, so we can check on your service needs.

## **Transition of Care Services**

You are eligible for Transition of Care Services when you are scheduled for a planned inpatient surgical procedure or when you have an unplanned admission to an acute inpatient hospital or skilled nursing facility. Our services help you when you are being discharged home or to a lower level of care. We pay special attention to helping you move from one level of care to another, such as when you are discharged from a hospital or a skilled nursing facility back to your home. It is important that you understand your discharge instructions and have everything you need at home to recover. We work with you to make sure you have follow-up appointments scheduled. We also make sure you receive all ordered medications and services, including oxygen and durable medical equipment. This ensures a smooth discharge and recovery.

Care Coordinators can help you through the following:

- Arranging services you need, including scheduling and keeping provider appointments
- Ensuring complete communication and coordination of services to provide safe, timely, high-quality care as you move out of an acute inpatient hospitalization stay
- We provide guidance before planned admissions, such as a scheduled surgery. We also provide guidance after discharge when you have had an unplanned admission
- Care coordinators help you understand your conditions to reduce risks of relapse and support your ability to care for yourself.
- We also provide education related to medication safety and the importance of taking medications as the doctor ordered.
- Care coordinators review and clarify your doctor's orders related to care, diet, and activity levels so you understand and can follow the plan of care.

You are required to participate in care coordination on the Elderly Waiver program. To talk about eligibility, please call Member Services.

## **Absent from Home**

You must inform your caregiver or provider if you plan to be absent from your home when your scheduled services are to be provided, such as a doctor's appointment, a general outing, or a short vacation. Notify your caregiver or provider when you will not be home and when you plan to return so they can resume services upon your return.

During your absence, give your caregiver or provider and your Blue Cross Community Health Plans Care Coordinator your temporary phone number and address, in case you need to be reached.

## **Delivery of Services**

You Must Cooperate in the Delivery of Services

To assist your caregivers, you must:

- Notify your caregiver or provider at least one (1) day in advance if you will be away from home on the day you are to receive service.
- Allow the authorized caregiver into your home.
- Allow the caregiver to provide the services authorized on your Service Plan you approved.

Do not require the caregiver to do more or less than what is on your Service Plan. If you want to change your Service Plan, call your Blue Cross Community Health Plans Care Coordinator. Your caregiver cannot change your Service Plan.

You and others in your home must not harm or threaten to harm the caregiver or display any weapons. Not cooperating as noted above may result in the suspension or termination of your LTSS services. Your Blue Cross Community Health Plans Care Coordinator will work with you and the caregiver to develop a Care Management Agreement to restart your services.
