¿Qué es la lista de medicamentos de Blue Cross Community Health Plans (la “cobertura”)?

La lista de medicamentos (conocida también como formulary en inglés) es una lista que muestra los medicamentos que incluye la cobertura.

Los medicamentos que figuran en la lista estarán incluidos siempre y cuando usted:

- tenga una necesidad médica para usarlos;
- obtenga los medicamentos en una farmacia que forme parte de la red;
- siga las otras normas de la cobertura.

Para obtener más información sobre cómo se surten los medicamentos, consulte su manual del asegurado.

¿Qué tendré que pagar?

No tiene que pagar nada por los medicamentos incluidos en la cobertura.

¿La lista de medicamentos puede cambiar?

Sí, puede cambiar. La cobertura puede cambiar en los siguientes casos:

- cuando haya un medicamento genérico nuevo y menos costoso;
- cuando aparezca información nueva que indique que el medicamento no es seguro o es menos eficaz.

Cuando se realicen cambios en la lista de medicamentos, se le informará por escrito.

¿Cómo debo usar la lista de medicamentos?

Hay dos formas para encontrar un medicamento en la lista que empieza en la página 1.

1. Por categoría:

- La lista de medicamentos con cobertura que comienza en la página 1 brinda información acerca de los medicamentos incluidos en las coberturas médicas de Blue Cross Community (BCCHP[®]). Si tiene dificultades para encontrar el medicamento en la lista, consulte el índice que comienza al final de esta guía.
- La primera columna del cuadro indica el nombre del medicamento. Los medicamentos de marca aparecen en letra mayúscula (por ejemplo, CIPRO) y los medicamentos genéricos aparecen en letra cursiva minúscula (por ejemplo, *ciprofloxacin*).
 - La información que aparece en la columna “Acciones necesarias, restricciones o límites de uso” indica si Blue Cross Community Health Plans cuenta con requisitos para incluir el medicamento en su cobertura.
- Los medicamentos se enumeran en categorías o grupos, según el tipo de problema médico que traten. (Por ejemplo, los medicamentos que se usan para tratar enfermedades cardíacas se enumeran en “Agentes cardiovasculares”).
- Si usted sabe para qué se usa su medicamento, busque el grupo en la lista.
- Luego, busque el medicamento dentro de ese grupo.

2. Por listado alfabetico:

- Busque el medicamento al final de esta guía.
- Junto al nombre, verá el número de página donde puede encontrar la información de la cobertura.

¿Qué son los medicamentos genéricos?

La Administración de Alimentos y Medicamentos (FDA, en inglés) autoriza la fabricación de medicamentos genéricos cuando tienen el mismo principio activo que los de marca, aunque suelen costar menos. La cobertura incluye tanto los medicamentos de marca como los medicamentos genéricos.

¿Existe algún límite en mi cobertura?

Algunos medicamentos con cobertura incluyen restricciones o condiciones adicionales como las siguientes:

- **Autorización previa (PA, en inglés):** Es posible que usted o su médico deban obtener aprobación antes de abastecer los medicamentos. Si no obtiene una autorización, puede que la cobertura no cubra el medicamento.
- **Límites de cantidad (QL, en inglés):** La cobertura limita la cantidad que cubrirá de algunos medicamentos.
- **Terapia escalonada (ST, en inglés):** En algunos casos, la cobertura requiere que pruebe ciertos medicamentos antes de que se pueda cubrir otro. Por ejemplo, si tanto el medicamento A como el medicamento B se usan para tratar su problema médico, es posible que la cobertura no cubra el medicamento B, a menos que usted pruebe primero el medicamento A. Si el medicamento A no funciona en su caso, entonces la cobertura incluirá el medicamento B.
- **Límite de edad (AL, en inglés):** Algunos medicamentos tienen limitaciones en función de la edad de los asegurados. Esto se debe a un programa de seguridad para prevenir efectos secundarios nocivos, el cual sigue los límites de edad autorizados por la FDA.
- **Dosis equivalente de morfina (ME, en inglés):** La dosis equivalente de morfina es una herramienta que se usa para ayudar a prevenir que los asegurados tomen medicamentos para el dolor (opioides) en exceso. Esta herramienta le permite a Blue Cross Community Health Plans calcular la dosis diaria total de analgésicos que toma un asegurado, independientemente del opioide que se le recete. El límite diario actual de la dosis equivalente de morfina en Illinois es de 120 miligramos por día. Si usted toma una dosis superior a 120 miligramos (ME120), deberá obtener autorización previa para que Blue Cross Community Health Plans pague el costo de los medicamentos con receta.
- **Programa de surtido diferido de medicamentos especializados (SF, en inglés):** Los medicamentos especializados son medicamentos con receta que se usan para tratar problemas médicos complejos y crónicos, como el cáncer, la artritis reumatoide y la esclerosis múltiple. Estos medicamentos son una parte importante de muchos planes de tratamiento. Pueden causar efectos secundarios que podrían llevar a su médico a hacer cambios en la dosis o a suspender la medicación por completo. Según avanza el tratamiento, su médico puede hacer cambios hasta que se determine la mejor dosis para usted. Esto puede tomar unos meses. Los objetivos de este Programa de surtido diferido de medicamentos especializados para asegurados que empiezan un tratamiento nuevo son los siguientes:
 - prevenir el uso de medicamentos con receta innecesarios en dosis inadecuadas;
 - reducir el desperdicio de estos medicamentos;
 - tratar los efectos secundarios.

Durante los primeros dos o tres meses del tratamiento, podrá recibir un suministro de 14 o 15 días de su medicamento con receta dos veces al mes. Después de los primeros dos o tres meses de tratamiento y una vez que se haya determinado la dosis adecuada, puede comenzar a recibir el suministro completo de un mes para el resto del tratamiento.

Puede averiguar si su medicamento tiene alguna condición o restricción adicional consultando la lista que comienza en la página 1. Encontrará nuestra información de contacto más adelante, y la fecha en que actualizamos la lista por última vez en la contraportada. Los profesionales médicos pueden presentar solicitudes de excepción de cobertura por fax (1-877-243-6930), por teléfono (1-800-285-9426, TTY/TDD 711) o a través de los sitios web www.myprime.com/es.html o CoverMyMeds.com (contenido disponible solo en inglés). Los profesionales médicos pueden encontrar los formularios en <https://www.myprime.com/es.html>.

¿La cobertura incluye los medicamentos de venta libre (OTC, en inglés)?

Sí, la cobertura cubre el costo de ciertos medicamentos de venta libre con una orden válida de su médico, y puede obtenerlos sin costo. Se debe recetar y suministrar medicamentos genéricos siempre que estén disponibles. Estos medicamentos de venta libre se deben surtir en una farmacia que participe en una red de la cobertura, y el suministro debe cubrir hasta 30 días.

¿Qué sucede si mi medicamento no aparece en la lista de medicamentos?

Póngase en contacto con Atención al Asegurado y pregunte si su medicamento está incluido. Si le informan que el medicamento no está incluido en su cobertura, tiene dos opciones:

- Hable con su médico para determinar si primero debe probar otro medicamento distinto de nuestra lista antes de solicitar una excepción.
- Pida a Atención al Asegurado que se haga una excepción para cubrir su medicamento. Envíe una declaración de su médico que respalde su solicitud. Tomaremos una decisión dentro de las 24 horas siguientes a la recepción de la declaración de su médico.

Por norma general, solo aprobamos las solicitudes de excepción si los otros medicamentos incluidos en nuestra lista o los límites adicionales de uso pueden hacer que su tratamiento sea menos eficaz o pueden ser perjudiciales para su salud.

¿Qué categorías de medicamentos no están incluidas según la lista de medicamentos de la cobertura?

Las siguientes categorías de medicamentos no están incluidas en su cobertura:

- medicamentos para el tratamiento de la anorexia, la pérdida de peso o el aumento de peso;
- productos químicos a granel;
- medicamentos con fines cosméticos;
- agentes de diagnóstico;
- medicamentos clasificados como ineficaces por la implementación del estudio de la eficacia de los medicamentos (DESI, en inglés);
- medicamentos experimentales y en investigación;
- medicamentos para la disfunción eréctil recetados para tratar la impotencia;
- medicamentos para la fertilidad;
- medicamentos anestésicos generales;
- medicamentos de venta libre que no se incluyen en la lista de medicamentos de la cobertura;
- suministros quirúrgicos/dispositivos médicos;
- medicamentos en dosis consideradas irracionales, innecesarias o excesivas según los criterios de Medicaid, las guías de práctica clínica y el etiquetado de la FDA.
