Overview
The Blue Cross Community Health Plans (BCCHP) is a program developed and administered by Blue Cross and Blue Shield of Illinois (BCBSIL) intended to support delivery of integrated and quality managed care services to enrollees, supporting seniors, persons with a disability, families and children (including special needs children) and adults qualifying for the Illinois Department of Healthcare and Family Services (HFS) Medical Program under the Affordable Care Act (ACA). BCBSIL has a network of independently contracted providers including physicians, hospitals, skilled nursing facilities, ancillary providers, Long-Term Services and Support (LTSS) and other health care providers through which BCCHP members may obtain covered services.

BCCHP is available to individuals eligible for Medicaid in the approved service area in the State of Illinois. BCCHP will furnish members with a member handbook that will include a summary of the terms and conditions of its plan.

BCBSIL is committed to working with independently contracted providers and our members to achieve a high level of satisfaction with the delivery of quality health care services. One of the goals of the BCCHP is breaking down the financial, cultural and linguistic barriers preventing low-income families and individuals from accessing health care.

About the Provider Manual
This Provider Manual and related Policies and Procedures are designed to provide information regarding BCCHP operations and plan benefits. BCBSIL shall notify independently contracted providers of any changes to the Provider Manual.

Questions regarding the information outlined in this Provider Manual may be directed to the Provider Services Department at 877-860-2837.
Key Contact Information
The Provider Manual is a reference for contracted providers to use while working with BCBSIL. Providers who have questions may refer to the following chart for a listing of additional resources and related information, such as important telephone and fax numbers.

Member Rights and Responsibilities

BCBSIL is committed to the goal of ensuring that enrolled members are treated in a manner that respects their rights as individuals entitled to receive health care services. BCBSIL also strives to support the cultural, linguistic, ethnic preferences and needs of our members. BCBSIL policies are designed to help address the issues of members participating in decision-making regarding their treatment; confidentiality of information; treatment of members with dignity, courtesy and a respect for privacy; and members' responsibilities in the practitioner-patient relationship and the health care delivery process.

BCBSIL also holds forth certain expectations of members with respect to their relationship to the managed care organization and the contracted health care providers participating in BCCHP. These rights and responsibilities are reinforced in member and provider communications, such as the BCBSIL website. As an independently contracted provider, you need to be aware of what we communicate to our members in the member handbook. These rights, as stated below, should be enforced by you and your staff.

Member Rights:

- The right to receive information about BCBSIL, its services, its practitioners and providers and your rights and responsibilities as our member.
- The right to health care when medically necessary as determined by your doctor and BCBSIL, 24 hours per day, 7 days per week for urgent or emergency care services and for other health care services as defined in the member handbook.
- Choose a Primary Care Provider (PCP) or provider from the BCCHP network and be able to refuse care of certain providers (a prior authorization may be necessary to see some providers).
- Choose to change your PCP or Women’s Healthcare Provider (WHCP). BCBSIL will process your request within 30 days after receiving your request.
- Be provided reasonable accommodation from BCBSIL and network providers.
- At least annually, get information about BCBSIL’s policies and procedures regarding products, services, providers, grievance, appeals and fair hearing procedures, enrollment notices, instructional material and other information about the company and the benefits provided in a manner and format that may be easily understood.
- Be treated with respect and recognition of your dignity and right to privacy.
- Participate with your provider in all decisions about your health care, including your treatment plan and your right to refuse health care treatment. Family members and/or legal guardians or decision-makers also have this right, as appropriate.
- Talk with your provider about treatment options, alternatives, risks and possible results for your health conditions, regardless of cost or benefit coverage. If you cannot understand the information, the explanation will be provided to your next of kin, guardian, agent or surrogate, if able, and documented in your medical record.
- File a grievance or appeal about BCBSIL or the care that you received and receive an answer within a reasonable time. Grievances or appeals can be filed with BCBSIL without fear of retaliation.
- Make recommendations about BCBSIL’s member rights and responsibilities policy.
- Be able to refuse medication and treatment after possible consequences of the decision have been explained in a language that you understand.
- Receive information for obtaining benefits, including prior benefit authorization requirements.
- Receive prompt notification of termination or changes in benefits, services or provider network.
- Receive health care that does not discriminate against you due to:
  a. Medical condition (including physical and mental illness);
  b. Claims experience;
  c. Receipt of health care;
d. Medical history;
e. Genetic information;
f. Evidence of insurability; or
g. Disability
- Receive a second opinion from another BCCHP provider.
- Have an interpreter when you do not speak or understand the language that is being spoken.
- Know the name and professional background of anyone involved in your treatment and the name of the person primarily responsible for your care.
- Decide on advance directives for your health care as allowed by law.
- Inspect and get a copy of your Protected Health Information (PHI) as allowed by law, receive confidential communications of your PHI from BCBSIL, request an amendment, or addition to, your PHI if, for example, you feel the information is incomplete or wrong, request that the use or disclosure of your PHI is restricted and receive an accounting of PHI disclosures.
- Get a paper copy of the official Privacy Notice from BCBSIL upon request (even if you have already agreed to receive electronic Privacy Notices).
- Be free from balance billing from BCBSIL or its network providers.
- Be free from harassment from BCBSIL or its network providers in regard to contractual disputes between BCBSIL and providers.
- Select a health plan and the right to switch enrollment rights without threats or harassment.
- Choose a surrogate decision-maker to be involved, as appropriate, to assist with care decisions.
- Receive any information in a different format in compliance with the Americans with Disabilities Act (ADA).
- Give informed consent for medical services.
- Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation, as specified in federal and/or Illinois regulations on the use of restraints and seclusion.
- Access your medical records in accordance with the applicable federal and state laws and regulations, and are able to request that a medical record be amended or corrected. If the member has a legal guardian, the legal guardian has the right to access the member’s medical records.
- Receive information concerning the structure and operations of BCBSIL.
- Obtain Family Planning Services from any qualified Medicaid provider, either in or out of the BCBSIL network of providers.
- Dis-enroll from BCBSIL at any time.

**Member Responsibilities:**
- Give complete health information to help your provider give you the care you need.
- Follow your treatment plan and instructions for medications, diet, and exercise as agreed upon by you and your provider.
- Do your best to understand your health problems and take part in developing treatment goals agreed upon by you and your provider.
- Make appointments a head of time for provider visits.
- Keep your appointment, or call your provider to reschedule or cancel at least 24 hours before your appointment.
- Tell your providers if you don’t understand explanations about your health care.
- Treat your provider and other health care employees with respect and courtesy.
- Show your ID card to each provider before getting medical services (or you may be billed for the service).
- Know the name of your PCP and have your PCP provide or arrange your care.
• Call your PCP or the 24/7 Nurseline before going to an emergency room, except in situations that you believe are life threatening or that could permanently damage your health.
• Tell the Illinois Department of Health and Family Services and BCBSIL about changes to your phone number or address.
• Tell BCBSIL if you have other health insurance, including Medicare.
• Give a copy of your living will and advance directives to your PCP to include in your medical records.
• Read and follow the member handbook.

Nondiscrimination
BCBSIL and the provider may not deny, limit or condition enrollment to individuals eligible to enroll in BCCHP on the basis of any factor that is related to health status, including, but not limited to the following:
• Claims experience
• Receipt of health care
• Medical history
• Medical conditions arising out of acts of domestic violence
• Evidence of insurability including conditions arising out of acts of domestic violence and disability

Additionally, BCBSIL and its providers must:
• Comply with the provisions of the Civil Rights Act, Age Discrimination Act, Rehabilitation Act of 1973, Americans with Disabilities Act (ADA) and the Genetic Information Nondiscrimination Act of 2008.
• Confirm that procedures are in place to ensure that members are not discriminated against in the delivery of health care services, consistent with the benefits covered in their policy, based on race, ethnicity, national origin, religion, gender, age, mental or physical disability, sexual orientation, genetic information or source of payment.
Third-Party Premium Payments
Premium payments for individual plans are a personal expense to be paid for directly by individual and family plan subscribers. In compliance with federal guidance, BCBSIL will accept third-party payment for premium directly from the following entities:

(1) the Ryan White HIV/AIDS Program under title XXVI of the Public Health Service Act; (2) Indian tribes, tribal organizations or urban Indian organizations; and (3) state and federal government programs.

BCBSIL may choose, in its sole discretion, to allow payments from not-for-profit foundations, provided those foundations meet nondiscrimination requirements and pay premiums for the full policy year for each of the covered persons at issue. Except as otherwise provided above, third-party entities, including hospitals and other health care providers, shall not pay BCBSIL directly for any or all of an enrollee's premium.

Confidentiality of Member Information
Providers must comply with all state and federal laws concerning confidentiality of health and other information about members. Providers must have policies and procedures in place regarding use and disclosure of health information that comply with applicable laws. BCCHP members have the right to privacy and confidentiality regarding their health care records and information. Independently contracted providers and each staff member must sign an Employee Confidentiality Statement to be placed in the staff member's personnel file.

Basic Rule
BCBSIL and its providers must provide or arrange for the provision of all Medicaid services to BCCHP members. Members must have access to all covered medically necessary items and services.

Uniform Benefits
All plan benefits must be offered uniformly to all members residing in the service area of the plan, note some Long-Term Supports and Services benefits may vary based upon the type of Home and Community Based (HCBS) Waiver received by the Member.

Access and Availability
The following appointment availability and access guidelines should be used to help ensure members have timely access to medical care and behavioral health care services:

- Appointment for routine care or preventive care within five weeks from the date of request for such care.
- Members with more serious problems not deemed emergency medical conditions shall be triaged and, if necessary or appropriate, immediately referred for urgent medically necessary care or provided with an appointment within one business day of the request.
- Response by independently contracted Provider within 30 minutes of an emergency call.
- Members with problems or complaints that are not deemed serious shall be seen within three weeks from the date of request for such care.
- Behavioral health providers must provide access to care for non-life threatening emergencies within six hours.
- Initial prenatal visits without expressed problems shall be made available within two weeks after a request for a member in the first trimester, within one week for a member in the second trimester, and within three days for a member in the third trimester.
- Provider shall offer hours of operation that are no less favorable than the hours of operation offered to persons who are not Members.
In addition, to help ensure that members enrolled with the providers have reasonable access to the provider, hours of operation must include:
  - Evening or early morning office hours three or more times per week;
  - Weekend office hours two or more times per month; and
  - Notification to the member when the anticipated office wait time for a scheduled appointment may exceed 30 minutes.

After-hours access shall be provided to help ensure a response to after-hours phone calls. Members who believe they have an emergency medical condition should be directed to seek emergency services immediately.

Providers are expected to provide coverage for members 24 hours a day, seven days a week. In addition, providers must maintain a 24-hour answering service and assure that each PCP provides a 24-hour answering arrangement, including a 24-hour on-call PCP arrangement for all members. An answering machine does not meet the requirements for a 24-hour answering service arrangement. Hospital emergency rooms or urgent care centers are not substitutes for covering providers.

The BCCHP requires the providers to provide access to necessary specialist care, and, in particular, gives members the option of direct access to a women’s health specialist within the BCCHP network for women’s routine and preventive health care services.

Adherence to member access guidelines will be monitored through the office site visits and the tracking of complaints/grievances related to access and availability, which are reviewed by the Clinical Quality Improvement Committee. If you have any questions regarding your site visit, please contact your IPA Administration. If you do not participate with an IPA, you may contact your BCBSIL Provider Network Consultant.

**PCP Panel Size Requirement**

For BCCHP Enrollees, Contractor’s maximum PCP panel size shall be eighteen hundred (1800) Enrollees. An additional maximum of nine hundred (900) of such Enrollees is allowed for each resident Physician, nurse practitioner, Physician assistant and advanced practice nurse who is 100% FTE.

**Services Provided in Linguistically and Culturally Competent Manner**

BCBSIL is obligated to ensure that services are provided in a linguistic and culturally competent manner to all members, including those with limited English proficiency or reading skills and from diverse cultural and ethnic backgrounds, physical disabilities, developmental disabilities and differential abilities. BCBSIL is committed to the development, strengthening and sustainability of healthy provider and member relationships. Providers are obligated to meet this requirement and can direct members to BCCHP resources when in need of cultural and linguistic support and services. The BCCHP Customer Service Department (phone number is listed on the back of the member’s ID card) has available the following services for BCCHP members:
  - Teletypewriter (TTY) services
  - Language services
  - Bi-lingual-speaking Customer Service Representatives

**Preventive Services**

Members may access certain preventive services from any provider. BCCHP includes all covered preventive services. BCCHP members may directly access in-network screening mammography and administration of influenza vaccine.
Early and Periodic Screening, Diagnostic and Treatment (EPSDT)

EPSDT is a mandatory set of services and benefits for all individuals under age 21 who are enrolled in Medicaid. Screening includes a comprehensive health and developmental history, an unclothed physical exam, appropriate immunizations, laboratory tests, and health education.

Advance Directives

Advance directives are written instructions, such as living wills or durable powers of attorney for health care, recognized under the law of the State of Illinois and signed by a patient, that explain the patient’s wishes concerning the provision of health care if the patient becomes incapacitated and is unable to make those wishes known.

BCBSIL is committed to ensure that its members are aware of and are able to avail themselves of their right to execute an advance directive. BCBSIL is equally committed to ensuring that providers and staff are aware of and comply with their responsibilities under federal and state law regarding advance directives.

Providers delivering care to BCBSIL members must ensure that all members receive information on advance directives and are informed of their right to execute advance directives. Providers must document in a prominent part of the member’s current medical record whether or not the member has executed an advance directive.

If an advance directive exists, the provider should discuss potential medical emergencies with the member as well as a designated family member/significant other (if named in the advance directive and if available) and with the referring physician, if applicable. Any such discussion should also be documented in the medical record.
Americans with Disabilities Act (ADA) and Civil Rights Act of 1964
Providers are required to comply with the ADA and Civil Rights Act of 1964 to promote the success of the BCCHP and support better health outcomes for members. In particular, successful person-centered care requires physical access to buildings, services and equipment and flexibility in scheduling and processes. BCBSIL also recognizes that access includes effective communication. BCBSIL requires that providers communicate with members in a manner that accommodates their individual needs, which includes
- Providing interpreters for those who are deaf or hard of hearing or who do not speak English;
- Accommodate members with cognitive limitations; and
- Utilizing clear signage and way-finding, such as color and symbol signage, throughout facilities.

In addition, BCBSIL recognizes the importance of staff training on accessibility and accommodation, independent living and recovery models, cultural competency and wellness philosophies. BCBSIL will continue to work with providers to help further develop learning opportunities, monitoring mechanisms and quality measures to promote compliance with all requirements of the ADA.

For more information about the ADA, please visit the website or call the toll-free ADA Information Line Monday through Wednesday, Friday 9:30 a.m. to 5:30 p.m., Thursday 12:30 to 5:30 p.m. (ET) to speak with an ADA Specialist. All calls are confidential.

ADA website
www.ada.gov

ADA Information Line
800-514-0301 (voice)
800-514-0383 (TTY)

Section 504 of the Rehabilitation Act of 1973 is a national law that protects qualified individuals from discrimination based on their disability. For more information about Section 504, visit the Department of Health and Human Services Office for Civil Rights website at: www.hhs.gov/ocr.

A list of HHS Office for Civil Rights (OCR) regional offices near you can be found at: www.hhs.gov/ocr/office/about/rgn-hqaddresses.html.

Section 504’s requirements for new construction and alterations to buildings and facilities are found at 45 C.F.R. Part 84, Subpart C for recipients of federal financial assistance. The regulations are available at: www.hhs.gov/ocr/civilrights/resources/laws/index.html.
Provider Orientation and Training
BCBSIL will make available orientation and training to all providers and their office staffs regarding the requirements of the BCCHP.

Provider Orientation
BCBSIL will make available an initial provider orientation within 30 calendar days of the provider becoming effective with BCCHP. Orientation sessions will be made available for all providers and their office staffs. Ongoing educational opportunities will be provided to help ensure compliance with plan program requirements. Providers will be made aware of these ongoing educational opportunities through correspondences, website postings and Provider Network Consultant meetings. The sessions may cover, but are not limited to, the following topics:
- Program Overview
- Care Model Overview
- Member Information
- Benefits and Beneficiary Rights
- Critical Incident Reporting

Provider Education and Training
BCBSIL will make available cultural competency, cross cultural communication and disability literacy training programs to all providers. The goals of the training programs include, but are not limited to, helping providers:
- Improve the care and simplify the processes for members to access the items and services they are entitled to under the Medicaid program.
- Improve care continuity and help ensure safe and effective care for both acute and Long-Term Supports and Services (LTSS).

Disability Literacy training is a requirement for all BCCHP providers. In this training, the following topics may be covered:
- The Medicaid population, barriers the population may encounter and prevalent chronic conditions within the population
- Personal prejudices against persons with disabilities
- ADA requirements and the legal obligations of providers
- Various access requirements (communication, equipment, physical and program access)
- Person-centered planning and self-determination
- Independent Living and Wellness philosophies and the recovery model
- Evidence-based practices and quality outcomes
- Working with enrollees with mental health diagnoses regarding crisis prevention and treatment

BCBSIL is committed to helping to ensure that providers and their office staffs are culturally competent to work with and address the diverse needs of BCCHP members. BCBSIL will make available ongoing education and training workshops, including but not limited to, the topics outlined below, and will require all providers and office staff to participate in training at least once per calendar year. Such training may include, but is not limited to, the following topics:
- Medicaid Overview
- Model of Care/Medical Home (Person-Centered Practice)
- Fraud, Waste, and Abuse (FWA)
- Abuse, Neglect, Exploitation/Critical Incidents
- Cultural Competency
- Americans with Disabilities Act (ADA)/Independent Living
- Medicare Part C and D General Compliance Training
The facility or provider can complete the annual compliance training online at https://www.bcbsil.com/provider/network/training_medicaid.html or an online or paper BCBSIL/Illinois Association of Medicaid Health Plans (IAMHP) Attestation that certifies completion of the annual compliance training from another Managed Care Organization (MCO). Paper Attestation Forms may be obtained from your BCBSIL Provider Network Consultant.

BCBSIL will also make available for providers training about Care Coordination. This training includes:

- The roles and responsibilities of the Interdisciplinary Care Team (ICT)
- Communication pathways between providers and the ICT
- Care plan development
- Consumer direction
- Utilization of Health Information Technology and awareness of available electronic options to support care coordination

Health Education for Members

BCBSIL encourages providers to provide health education to Medicaid members. The Provider Network Consultants will make available training to help support member education on topics such as preventive care, disease-specific and plan services information. The goal of this education will be to promote compliance with treatment and encourage self-direction from members.

Provider Education on Waiver Members

The Care Coordination Department will be responsible for distributing to members with waivers the provider Packets for Individual Illinois Department of Human Services (DHS) Home and Community Based Services (HCBS) providers. Care Coordinators will educate members regarding the member’s responsibility to provide the provider packets to Personal Assistants and other individual providers who provide services under the Persons with Disabilities HCBS Waiver, Persons with HIV/AIDS HCBS Waiver or Persons with Brain Injury HCBS Waiver. Members will be educated that Personal Assistants and individual providers cannot begin providing services until the packets are fully completed. These packets must also be returned to and accepted by the local Division of Rehabilitation Services (DRS) office before services may be provided. If you are a Personal Assistant or individual provider, and have questions about this process, please contact the BCBSIL Care Coordination Department.

Provider and Health Plan Education at Provider Locations

Providers and their staff shall ensure that a client is aware of all plan choices and shall use materials approved by the Health Plan and HFS in educating individuals. At the request of a provider, a flyer/letter template will be provided to providers to use in their offices which will require the provider to include all health plans that they are contracted with. If a provider chooses to prefer a health plan in the flyer/letter (the preference must be a benefit to the recipient, not only to the provider), providers may add a paragraph to the flyer/letter indicating their preference. The paragraph must make no false or disparaging statements about other health plans and must be presented in a positive way. Any flyer/letter that has a preferred provider paragraph must be submitted through BCBSIL for HFS approval. You may contact your Provider Network Consultant (PNC) to assist with the approval process.

The provider template flyer/letter, including those with a preferred health plan paragraph must have a statement at the bottom that states, “Illinois Client Enrollment Services will send you information about your health plan choices when it is time for you to make a health plan choice and during your Open Enrollment period.”
Provider offices are prohibited from providing client access to the Client Enrollment Services Enrollment Portal to make an online enrollment choice within any provider setting. This includes all Health Plan primary care provider offices, health fairs, or other health plan functions where enrollment may be discussed. If a potential enrollee is not currently enrolled with a Health Plan, you may refer them to the Illinois Client Enrollment Services at 877-912-8880 for information about their health plan choices. An individual that is not enrolled in a health plan may also be excluded from participating in a managed care program. These individuals should be referred to HealthChoice Illinois for assistance in finding providers for needed services.

In addition to the above guidelines and in accordance with the Provider Agreement, Providers may not utilize BCBSIL name(s) or symbol(s) without prior written approval by BCBSIL.

Program Compliance
BCCHP providers are required to cooperate and comply with BCBSIL medical policies as well as BCBSIL policies, procedures and programs for quality improvement, performance improvement and medical management, including, as applicable, drug utilization management, medication therapy management and e-prescribing programs. Cooperation and compliance includes, but is not limited to, making all records and information regarding medical services rendered, medical management and quality improvement activities available to BCBSIL and Illinois Department of Healthcare and Family Services (HFS) upon request, and providing the BCCHP data, as may be necessary, for BCBSIL to implement and operate any and all quality improvement and medical management programs.

Medical Records
Providers are required to provide medical records requested by BCBSIL. Purposes for which medical records from providers are used by BCBSIL include, but are not limited to:

- Advance benefit determinations
- Plan coverage
- Medical necessity
- Proper billing
- Quality reporting
- Fraud and abuse investigations
Cultural Competency and Diversity

Providers must understand cultural competency as it pertains to members they may see in their practice. Cultural competency refers to a set of congruent behaviors, attitudes and policies that come together in a system, agency or among professionals, that enables them to work effectively in cross-cultural situations. Cultural competency involves the integration and transformation of knowledge, information and data about individuals and groups of people into specific clinical standards, skills, service approaches, techniques and marketing programs that match an individual’s culture and which are intended to increase the quality and appropriateness of health care and outcomes. Providers are expected to take into consideration the member’s racial and ethnic group, including their language, histories, traditions, beliefs and values when rendering or referring members for medical services.

Providers are also encouraged to respect and value human diversity and make a good faith, reasonable effort to utilize minority, women and disabled owner business enterprises in the performance of services provided under the BCCHP.

Providers are required to provide an interpreter when the member does not speak or understand the language that is being spoken.

Initial Health Risk Screening

The Health Risk Screening (HRS) is a clinician- or paraprofessional-directed annual member questionnaire that is used to help providers determine the care coordination stratification level for purposes of member engagement into the appropriate care coordination program. The HRS is conducted either telephonically or face to face, normally within 60 days of the member’s enrollment into the plan. During the HRS process the member’s demographic information is verified, the member is provided important information regarding benefits and PCP selection is verified. Based on the result of the screening, members are risk-stratified and referred to the appropriate care management program.
Quality Improvement
Quality improvement (QI) is an essential element in the delivery of care and services to members. To help define and assist in monitoring quality improvement, the BCBSIL QI Program focuses on measurement of clinical care and service delivered by providers against established goals.

Providers are required to cooperate with BCBSIL’s quality improvement activities and participate in the BCBSIL QI Program. Providers’ cooperation with the QI Program includes, but is not limited to:

1. Cooperate with the BCBSIL data collection process by reviewing medical and administrative records for identified members and submitting requested documentation to BCBSIL.
2. Permit BCBSIL to publish results related to provider’s clinical performance.
3. Permit BCBSIL Medical Director and/or BCBSIL staff to inspect, at mutually agreed upon times, but no later than seven days after a request, the premises used by the provider for members, as well as to study all phases of the medical services provided by the provider to members. Study will include the inspection of medical records.
4. Assist BCBSIL staff in scheduling provider site visits; facilitate access to provider’s medical records, including electronic medical records, for Quality Improvement Program (QIP) reporting and other BCBSIL quality improvement initiatives (including quality site visits);
5. Submit an annual emergency preparedness plan and copies of CPR (cardiopulmonary resuscitation) cards to BCBSIL personnel at time of the provider’s site visit;
6. Maintain a site visit physical site review score of 90 percent, or better, which includes accessibility and facility inspection and a medical record content review score of 90 percent, or better, which includes preventive care review, medical record quality of care and medical record entry in compliance with BCBSIL Quality Site Visits Standards.

Utilization Management (UM)
The BCBSIL Utilization Management (UM) program includes:

- Admission notification (emergency admissions)
- Prospective review (benefit preauthorization and pre-certification)
- Concurrent review
- Discharge planning
- Retrospective review

Providers are required to cooperate with BCBSIL’s UM policies and procedures and participate in the BCBSIL’s UM Program concerning BCCHP members as the policies and procedures are developed and implemented. Provider cooperation with the UM Program includes, but is not limited to:

1. Cooperate with the BCBSIL UM program for hospital, skilled nursing facility and other inpatient facility admissions, home health care, outpatient surgery and outpatient specialist services, home and community based waiver services, supportive living facilities, mental health and substance abuse services;
2. Adhere to BCBSIL requirements for pre-admission certification, concurrent review and case management activities;
3. Participate in BCBSIL disease and case management programs;
4. Designate a staff member employed by the provider who will serve as the primary contact for BCBSIL and will be responsible for care coordination activities including, but not limited to, the following:
   a. Facilitate physician involvement in the development and ongoing monitoring of the member’s individualized care plan;
   b. Cooperate with the BCBSIL care coordination team, member’s designated integrated health home and quality team in arranging or scheduling provider services; and
   c. Submit to BCBSIL all physician orders for BCCHP members that require prior authorized services.
5. Communicate appropriate treatment alternatives, regardless of cost or benefit coverage.
6. Distribute BCBSIL information to all providers, which includes, but is not limited to:
   a. Designated UM reports;
   b. Pharmacy reports;
   c. Quality reports including reports identifying members with gaps in care for targeted quality metrics;
   d. Quality Site Visit results;
   e. Blue Review provider newsletter;
   f. Any network survey results as requested by BCBSIL.

Protected Health Information (PHI)
The providers must follow all laws regarding privacy and confidentiality including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) provisions for the use of PHI and the provisions identified below and must require any sub-delegates to follow those same provisions:
- Use PHI (any member identifiers that can be linked to a member) only to provide or arrange for the provision of medical and behavioral health benefits administration and services;
- Provide a description of appropriate safeguards to protect the information from inappropriate use or further disclosure;
- Ensure that sub-delegates have similar safeguards;
- Provide individuals with access to their PHI;
- Inform all affected parties, including the provider, if inappropriate use of the PHI occur; and
- Ensure that PHI is returned, destroyed or protected if the contract ends.

Compliance with Federal Electronic Data Interchange Standards
Providers are required to transmit data to and receive data from BCBSIL, which information includes, but is not limited to, data relating to health care claims and equivalent encounter information, health care claims status, member enrollment and eligibility, health care payment and remittance advice, premium payments, referral certification and authorization, coordination of benefits, first report of injury and health claims attachments using only the code sets and data transmission standards as issued and in effect by the United States Department of Health and Human Services as published in 45 Code of Federal Regulations Part 142; and comply, and ensure compliance by its officers, employees and Physicians, with all electronic data security standards as issued and in effect by the United States Department of Health and Human Services as published in 45 Code of Federal Regulations Part 142; and accept electronic claims and encounter data that may be routed to the provider by BCBSIL, a physician or other health care provider or clearinghouse.
Compliance, Fraud, Waste and Abuse Program and Reporting

Compliance Program
Providers are required to implement and maintain a compliance program that, at a minimum, meets the standards for an effective compliance program set forth in Laws, including, without limitation, the Federal Sentencing Guidelines, and that address the scope of services under the BCCHP. The provider’s compliance program must require cooperation with BCBSIL’s compliance plan and policies and include, at a minimum, the following:

1. A code of conduct specific to the provider that reflects a commitment to preventing, detecting and correcting fraud, waste and abuse in the administration or delivery of covered services to members. BCBSIL’s code of conduct is available at http://www.hisccompliance.com.

2. Compliance training for all employees, subcontractors, any affiliated party or any downstream entity involved in the administration or delivery of covered services to members or involved in the provision of delegated activities such as:
   a. General compliance training to employees, subcontractors, any affiliated party or any downstream entity involved in the administration or delivery of covered services to members or involved in the provision of delegated activities at the time of initial hiring (or contracting) and annually thereafter. General compliance training must address matters related to the provider’s compliance responsibilities, including, without limitation, (a) provider’s code of conduct, applicable compliance policies and procedures, disciplinary and legal penalties for non-compliance and procedures for addressing compliance questions and issues; (b) provider’s obligations to comply with Laws; (c) common issues of non-compliance in connection with the provision of health care services to members; and (d) common fraud, waste and abuse schemes and techniques in connection with the provision of health care services to members.
   b. Providers will also provide specialized compliance training to personnel whose job function directly relates to the administration or delivery of covered services to members on issues particular to such personnel’s job function. Such specialized training shall be provided (i) upon each individual’s initial hire (or contracting); (ii) annually; (iii) upon any change in the individual’s job function or job requirements; and (iv) upon the contracted provider’s determination that additional training is required because of issues of non-compliance.
   c. Providers must maintain records of the date, time, attendance, topics, training materials and results of all training and related testing. Upon request, providers will provide to BCBSIL annually a written attestation certifying that the provider has provided compliance training in accordance with this section.

3. Policies and procedures that promote communication and disclosure of potential incidents of non-compliance or other questions or comments relating to compliance with Laws and the provider’s compliance and anti-fraud, anti-waste and anti-abuse initiatives. The program must include implementation and publication to provider’s directors, officers, employees, agents and contractors of a compliance hotline, which provides for anonymous reporting of issues of non-compliance with Laws or other questions or comments relating to compliance with Laws and the provider’s anti-fraud, anti-waste and anti-abuse initiatives;

4. Annual compliance risk assessments, performed at the provider’s sole expense. Upon request, the provider will share the results of the assessments with BCBSIL to the extent any part of the assessment directly, or indirectly, relates to BCBSIL.

5. Routine monitoring and auditing of the provider’s responsibilities and activities with respect to the administration or delivery of covered services to members.

6. Upon request, provide to BCBSIL reports of the activities of the provider’s compliance program required by BCBSIL, including, reports and investigations, if any, of alleged failures to comply with laws, regulations, the terms and conditions of the HFS Contract, or the BCBSIL Medical Service Agreement so that BCBSIL can fulfill its reporting obligations under Laws.
7. Upon request, provide to BCBSIL the results of any audits related to the administration or delivery of covered services to members.
8. Make appropriate personnel available for interviews related to any audit or monitoring activity.

**Incidents of Suspected Non-Compliance, Fraud, Waste or Abuse**
Providers must promptly investigate any potential and/or suspected incidents of non-compliance with Laws, fraud, waste or abuse in connection with the BCBSIL Medical Service Agreement and/or the administration or delivery of covered services to members and report any incident to BCBSIL as soon as reasonably possible, but in no instance later than 30 calendar days after the provider becomes aware of such incident. Notice to BCBSIL must include a statement regarding the provider’s efforts to conduct a timely, reasonable inquiry into the incident, proposed or implemented corrective actions in response to the incident and any other information that may be relevant to BCBSIL in making its decision regarding self-reporting of such incident.

Providers must cooperate with any investigation by BCBSIL, HFS, the Department of Health and Human Services (HHS) or their authorized designees relating to the incident. Failure to cooperate with any investigation may result in a referral to law enforcement and/or other implementation of corrective actions permitted under Laws.

The provider must require its downstream entities to promptly report to the provider, who shall report to BCBSIL, any incidents in accordance with this section.

**Conflicts of Interest**
The provider shall require any manager, officer, director or employee associated with the administration or delivery of covered services to members to sign a conflict of interest statement, attestation or certification at the time of hire and annually thereafter certifying that such individual is free from any conflict of interest in administering or delivering covered services to members. The provider shall supply the form of such statement, attestation or certification to the HMO upon request.

**Compliance Reviews**
Providers must provide BCBSIL with access to provider records, physical premises and facilities, equipment and personnel in order for BCBSIL, in its sole discretion and at its sole cost and expense, to conduct compliance reviews in connection with the terms of the BCBSIL Medical Service Agreement.

**Sanctions under Federal Health Programs and State Law**
Providers must ensure that no management staff or other persons who have been convicted of criminal offenses related to their involvement with Medicaid, or other federal health care programs, are employed or subcontracted by the independently contracted provider.

Providers must disclose to BCBSIL whether the provider or any staff member or subcontractor has any prior violation, fine, suspension, termination or other administrative action taken under Medicaid laws, the rules or regulations of the State of Illinois, any government sponsored program or any public insurer. Providers must notify BCBSIL immediately if any such sanction is imposed on a provider, a staff member or subcontractor.
Membership Information

Primary Care Physician Selection
BCBSIL requires that all members enrolled with BCCHP select a Primary Care Physician (PCP).

Assignment to PCP
Members are required to have a PCP. Members who have not selected a PCP within 30 days of their enrollment date will be assigned a PCP by BCBSIL. BCBSIL will consider the following in the assignment process:

1. Prior history with a PCP, if available
2. Ability of PCP to help meet the needs of the member
3. Location of PCP to member residence

Identification Cards
Below are examples of typical BCCHP identification cards. Note: BCBSIL reserves the right to change the ID cards without advance notice.

BCCHP Member ID Card
All eligible BCCHP members are issued an identification card. Identification cards are generated when:

- Member becomes eligible
- Member name changes
- Member changes PCP
- PCP phone number change

Each identification card contains the following information:

- Product name – Blue Cross Community Health Plans
- Member name
- Effective date – The member’s most current effective date
- PCP name
- PCP phone number
- Prescription drug benefit information
- The 24-hour telephone number to confirm eligibility and for benefits and benefit preauthorization for services
Unassigned Members

There are occasions where a member will be eligible with BCCHP but does not have a valid PCP assignment, for example:

- The member does not indicate a PCP selection on the enrollment application
- If the member is “asked out” of a PCP practice and fails to select a new PCP in the designated time frame
- BCCHP cannot determine the PCP selection on the enrollment application
- The member chooses an invalid PCP selection

If any of the above circumstances occur, the member will not receive an ID card. The member will be contacted requesting that they choose a PCP. If a member does not choose a PCP, BCBSIL will assign the member to a PCP based on BCCHP established protocols.

If a member wishes to change the PCP assignment, the member should call the BCCHP Customer Service Department at 877-860-2837.

Verifying Membership

Call 877-860-2837 to verify membership. Remember to always check the member’s ID card before services are rendered.
Introduction and Guidelines for Benefits Interpretation

The Scope of Benefits is based, in part, on Medicaid State Plan benefits and services including, but not limited to, home and community based waiver services. HFS has the right to make changes to the BCCHP benefits.

Each BCCHP member receives a BCCHP member handbook upon enrollment.

The provider is responsible for providing, or arranging for, all covered physician services, provider-approved inpatient and outpatient hospital services, ancillary services, long-term care support services and non-hospital-based emergency services within the scope of benefits of the member handbook.

All inpatient hospital admissions (except out-of-area admissions), skilled nursing facility (SNF) days and home health visits must be approved by the provider to be covered by BCCHP.

Covered services to a member will cease upon the effective date of disenrollment. Under special circumstances, the provider can request an exception from the Customer Assistance Department before the service is rendered.

This section is intended to provide a quick reference of covered and non-covered services. It includes frequently asked benefit questions and clarification on some issues that may be misinterpreted based upon past experience. However, it is not possible to include everything. If you have questions regarding covered services, please contact the Customer Service Department at 877-860-2837 from 8 a.m. to 5 p.m., CT, Monday through Friday.

BCCHP must cover all services and benefits covered by Medicaid.

Home and Community Based Waiver Services

Home and Community Based Services (HCBS) waivers are granted under the authority of Section 1915c of the Social Security Act, enabling states to provide services (other than room and board) to individuals as an institutional alternative.

Individuals served by waivers are most commonly disabled and/or over age 65.

In order to be eligible for a waiver, persons usually must require a level of care that, in the absence of community services, would require placement in one or more of these institutional settings:

- Hospital;
- Nursing Facility;
- Intermediate Care Facility for Persons with Intellectual Disabilities (ICF/ID)

States can offer a combination of standard medical and non-medical community services to divert or move individuals from institutional settings into their homes and community. Illinois HCBS waivers may be granted in the following situations:

- Aging Waiver – For individuals 60 years and older that live in the community.
- Individuals with Disabilities Waiver – For individuals who have a physical disability and are between the ages of 19-59.
- HIV/AIDS Waiver – For individuals that have been diagnosed with HIV or AIDS.
- Individuals with Brain Injury Waiver – For individuals with an injury to the brain.
- Supportive Living Facilities – This is for individuals that need assistance with the activities of daily living, but do not need the care of a nursing facility.
Medicaid Covered Services
Covered services eligible for benefits under BCCHP are in accordance with the terms of the Medicaid program. BCCHP may offer additional benefits and services. For complete details, including benefits, limitations and exclusions, members should refer to their member handbook.

All services must meet the definition of Medically Necessary Services as defined in the members handbook. Some services may:
- Have coverage limits
- Need a doctor’s order
- Need prior approval
Medicaid Covered Home and Community Based Waiver Services:
Members may qualify for Home and Community-Based Services waiver (HCBS), Supportive Living Facility (SLF) or Long-Term Care (LTC) benefits. Eligibility for these benefits or waivers is determined solely by the State of Illinois. This is usually done through an assessment tool, the Determination of Need (DON). In this process, the member will be asked a series of questions, and given an overall score. Based on the member’s DON score, the state will determine if the member is eligible for a waiver service or benefits to reside in a SLF or LTC facility. The table below is an outline of services available under a HCBS waiver.

This table is provided for informational purposes only and is not a guarantee that an individual will receive a waiver. Waiver determinations are made by the State of Illinois.
In addition to the covered waiver services described above, BCBSIL covers the following for eligible BCCHP members:

- Long Term Care
- Long Term Care SLF Dementia Care
- Non-Emergency Transportation
- Non-Emergent Ambulance Transportation
- Mental Health Rehabilitation Services
- Alcohol and Substance Abuse Rehabilitation Services

**BCCHP Utilization Management Program**

The BCCHP Utilization Management (UM) Plan is developed by BCBSIL in accordance with the requirements prescribed by the Illinois Department of Healthcare and Family Services (HFS), the Illinois Department of Insurance and other regulatory and accrediting agencies. The UM plan is evaluated and may be revised annually by BCBSIL.

The BCCHP UM Plan incorporates standards related to the monitoring of care and services rendered to BCCHP members. BCBSIL is responsible, unless delegated to another party, for the performance of UM and Case Management (CM), including complex and intensive case management, for members receiving physical health care, Long-Term Supports and Services (LTSS) and behavioral health services.

**Physician Responsibility for Care**

Providers are solely responsible for the provision of all health care services to BCCHP members and all decisions regarding member treatment and care are the sole responsibility of the provider. Such decisions are not directed or controlled by BCBSIL. BCBSIL’s decision about whether any medical service or supply is a covered benefit under the member’s BCCHP benefit plan are benefit decisions only and are not the provisions of medical care. It is the provider’s responsibility to discuss all treatment options with the member, regardless of whether such treatment is a covered benefit under the member’s benefit plan. Providers and subcontractors are encouraged to cooperate and communicate with other service providers who serve members. Providers are required to provide services to members in the same manner and quality as those services that are provided to other patients who are not BCCHP members.

**Program Scope**

The UM Program is applicable to all members in BCCHP, living in the service area. The UM Program is under the direction of the BCBSIL Medical Director. The goal of the UM process is to integrate the admission, ongoing prior authorization of benefits for inpatient hospital residential treatment, skilled nursing facility care, long-term acute care (LTAC), Long Term Supports and Services (LTSS), outpatient care, office and home care and discharge planning functions and to assist members with receiving benefits for continuity of service across the continuum. One goal of the UM program is to help in the assessment process that identifies specific health care needs and works with the member, family and physician in order to help meet the assessed needs.
Overview of Care Coordination

Care Coordination is an ongoing relationship between the member, his/her family or caregivers, the provider, and a Care Coordinator. Each member has an assigned Care Coordinator who helps facilitate and coordinate the delivery of care and services for the member. An Interdisciplinary Care Team (ICT) is developed with the member’s input which supports the member in identifying and reaching their individualized goals. A care plan is developed by the member and the ICT and progress is evaluated regularly to ensure there are no barriers or risks to meeting goals. This is accomplished through regularly-scheduled ICT meetings. The Care Coordinator is also a point of contact for the member when questions arise about benefits, services and health concerns.

The State of Illinois has a statewide program named the Family Case Management Program (FCM), that helps income eligible clients with a pregnant woman, infants, or young children to obtain the health care services and other assistance they may need to have a healthy pregnancy and to promote the child’s healthy development.

The program serves pregnant women and infants in families that are below 200% of the federal poverty level. Local FCM programs develop close working relationships with physicians, hospitals, pharmacist, and other specialty medical providers. The FCM program also collaborates (and develops signed working agreements) with community agencies to address barriers in accessing medical services, child care, transportation, housing, food, mental health needs and substance abuse services. Case management providers are extensions of the local Department of Human Service offices in that they serve as authorized agents for completing Medicaid Presumptive Eligibility (MPE) applications for pregnant women, and assist families in completing All Kids applications for their children. These providers are not directly contracted with BCBSIL and the Blue Cross Community Health Plans. BCBSIL does work to collaborate with these entities to ensure our members have continuous care and receive the care and/or referrals to programs that are needed. Additional information on the State of Illinois’ Family Case Management Program please visit http://www.dhs.state.il.us/page.aspx?item=31893 or contact the provider help line and request to speak with a Special Beginnings care manager.

The Care Coordinator is not a substitute for the member’s doctor, or health care provider. Members should discuss any questions or concerns about their health with their doctor/health care provider. The providers are required to exercise their independent medical judgment in providing services for their patients.

Care Coordination

Care coordination is a BCCHP service that is designed to assist members (and their families and caregivers) with multiple, complex, cognitive, physical, behavioral and special health care needs. Coordination seeks to integrate health care service providers involved in addressing all aspects of a member’s needs.

Care Coordination is designed to help identify the member’s medical, behavioral health and social needs and seeks to have necessary services provided and coordinated by:

- Providing a designated person who is primarily responsible for coordinating the member’s health care services;
- Assisting with access to providers for members with special needs;
- Assisting with coordination of medical and behavioral health services; and
- Interfacing and collaborating with outside entities or a member’s case manager, if applicable. The care coordinator may also refer the member to case management as needed.
Comprehensive Health Assessments
Based on the results of the health risk screening and other data sources, a comprehensive health risk assessment may be indicated. This may be completed telephonically or face-to-face. These assessments seek to identify the member’s unique needs. The goals of the assessment include the following:
- Identify possible member health care needs;
- Assist with access to health care services;
- Assist with coordination of care;
- Provide telephonic educational or written materials via mail as needed; and
- Refer members to appropriate case and condition management/disease management programs as may be needed.
  o Programs include Care Coordination, Complex Case Management, Disease Management, Pregnancy Support (Special Beginnings), Transition of Care, and Wellness Education

Benefit Preauthorization and Referral Process
- Prior benefit authorization is not required for emergency and urgent care services. Providers do not need to obtain benefit preauthorization from BCBSIL for referrals to in-network specialists.
- Benefit preauthorization is required from BCBSIL for services to all non-contracted providers before the services are rendered.
- Services rendered to members by non-contracted providers without appropriate medical referral or benefit preauthorization will not be considered for reimbursement.
- Approved referrals to non-contracted providers are valid for one visit within six months from the date the request is entered into the information system.
- Obstetrical/Gynecological Services – Members can self-refer to in-network providers for routine OB/GYN services.
- Prior benefit authorization is not required for substance abuse services when provider notifies BCBSIL within 24 hrs of initiation of treatment. All services are subject to establishment of medical necessity and may require a medical necessity review.
  o Applicable substance abuse services include the following: American Society of Addiction Medicine levels of treatment 2.1 (Intensive Outpatient), 2.5 (Partial Hospitalization), 3.5 (Clinically Managed High-Intensity Residential), and 3.7 (Medically Monitored Intensive Inpatient) and OMT (Opioid Maintenance Therapy) services

Unless otherwise prohibited by law, benefit preauthorizations, also referred to as prior benefit authorization, prior approval or pre-certification, are required for certain services before they are rendered. Benefit preauthorizations are based on benefits, limitations and exclusions as well as meeting the definition of medical necessity, as defined in the member handbook and supported through clinical information supplied by requesting physicians. Benefit preauthorizations can be obtained by calling the BCBSIL Medical Management Department at 877-860-2837.

The fact that a benefit preauthorization has been granted is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon the member’s coverage in effect on the date of service including, eligibility, exclusions, limitations and terms of coverage.

BCBSIL has contracted with eviCore healthcare (eviCore) to manage benefit preauthorization requests for certain specialized clinical services for BCBSIL Medicaid members. eviCore healthcare (eviCore) is an independent specialty medical benefits management company that provides utilization management services for BCBSIL.
Care Coordination - Integrated Health Homes (IHH)

- Member Eligibility: HFS identified roughly 250,000 members statewide; 42,000 of those eligible recipients have been identified as BCBSI members.
- HFS tiers members based on physical and behavioral health needs as identified through claims and encounter data. HFS will re-tier members on a quarterly basis: Tier A, B, C, or D.
- Populations excluded from the IHH program are:
  - Dual Eligible (MMAI)
  - 3rd Party Liability
  - Partially eligible individual
  - Members in custodial care
  - Native Alaskan & American Indian (can self-enroll)
  - HCBS waiver recipients

Please note that the fact that a guideline is available for any given treatment, or that a service has been preauthorized, is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member's eligibility and the terms of the member's certificate of coverage applicable on the date services were rendered.

Benefit Preauthorization List, Effective Jan. 1, 2019

The table below includes information on benefit preauthorization requirements for non-emergency services provided to MLTSS members, as defined in the Member Handbook. Eligibility for the following services listed below is determined by the State and must be on the member’s Individualized Service Plan (ISP). Eligibility for these services may be determined by the Determination of Need (DON) score and identified on the Individualized Service Plan. Claims received that have not been identified within the members Individualized Service Plan (ISP), and not approved for a home and community-based services waiver (HCBS), supportive living facility (SLF) or long term care (LTC) benefits will be denied. Based on the member’s DON score, the state will determine if the member is eligible for a waiver service or benefits to reside in a supportive living facility or a long-term care facility. These services are coordinated with the Care Coordination team, and are faxed to the providers. The Care Coordinators of BCBSIL are primarily managing the Long Term Support Services under MLTSS. Members may have different coverage for their Medicare A, B, or D. Care coordinators will assist members in all aspects of their health, but are not responsible for getting authorizations from other Managed Care Organizations (MCO) or traditional Medicare for medical or pharmaceutical items that fall under Medicare A, B, or D. Customer service will assist directing providers to other MCOs if needed for prior authorization. Claims received that do have a required prior authorization number may be denied. Contracted providers may not seek payment from the MLTSS member when claims have been denied for services that required prior benefit authorization.

</table>

Please note that the fact that a service has been preauthorized, is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member’s eligibility and the terms of the member’s certificate of coverage applicable on the date services were rendered.
The following services listed below require a Physical Health Prior Authorization. If there any changes made to benefits authorization list, providers shall be notified of the changes within 30 days of the changes, or as directed by IHFS. The care coordination team will determine the service amount and duration and communicate to the Utilization Management team for administrative approval for these services:

- **Environmental Accessibility Adaptations-Home** S5165
- **Therapy Services must be restorative based on specific Waiver** (evaluation and re-evaluation do not require a preauthorization):
  1. Occupational Therapy G0152
  2. Physical Therapy G0151
  3. Speech Therapy G0153

All services listed above are subject to the MLTSS benefits, limitations and exclusions as set forth in the member handbook.
### Timeliness of Decisions and Notifications

BCCHP Mental Health Mobile Crisis Response Program

Beginning Jan. 1, 2018, the Blue Cross service area will be expanded to cover all 102 counties in Illinois. Chrysalis Consulting Group, Inc. (Chrysalis), an independent third party vendor will continue to determine member eligibility and deploy providers for Blue Cross members with Medicaid benefits.

The BCBSIL Mobile Crisis Response Program will continue to be operated by independently contracted Community Mental Health Center providers (CMHC) and Behavioral Health Clinic providers (BHC). This is an intensive mental health program that provides pre-admission screening, community stabilization and follow-up services to members with a mental illness, emotional disorder or behavioral disturbance and who are at risk of psychiatric hospitalization.

The BCBSIL Mobile Crisis Response Program is delivered by independently contracted Community Mental Health Center providers (CMHC) and Behavioral Health Clinic providers (BHC). MCR providers requirements are detailed in the State of Illinois Community-Based Behavioral Services (CBS) Provider Handbook, Chapter CMH-200, Policy and Procedures for Screening, Assessment and Support Services.

Access to a Dedicated Crisis Hotline
Access to a dedicated crisis line is provided in Illinois by the Crisis and Referral Entry Services (CARES) Hotline operated by Chrysalis. The CARES Hotline is available 24 hours a day, every day of the year. The CARES crisis line shall be answered by staff who are capable of addressing a Behavioral Health Crisis upon direct answer, knowledgeable and authorized to engage the Mobile Crisis Response system, and knowledgeable about BCBSIL’s Disease Management Model for Children’s Mental Health.

The CARES hotline links parents, caregivers, family members or other concerned parties seeking to refer a member to Behavioral Health Crisis services to the MCR Provider. CARES hotline staff will screen with the caller, and based on the results will either initiate a SASS assessment at the location of the member or refer the caller to the BCBSIL Behavioral Health Unit, or other independent mental health or community services.

Once a case is initiated by the CARES hotline and is assigned to a MCR Provider, MCR staff will complete a face to face screening within ninety (90) minutes of notification to all members experiencing a Behavioral Health Crisis.

Mobile Crisis Response Services
Screenings take place at the site of the crisis, unless there is a threat to the safety of the member, the member’s family or the MCR staff member. If necessary, law enforcement or the identification of an alternate screening site may be utilized in order to address the safety of the member, caller and MCR staff member.

The goal is to conduct an assessment in a culturally responsive manner to assess the following:

- If the member is in imminent danger
- Potential lethality including harm to member or others
- The member’s emotional status and any apparent imminent psychosocial needs
- Member’s strengths and available coping mechanisms
- Resources that can increase service participation and success
- The most appropriate and least-restrictive service alternative for the member
• The MCR screening documentation includes, at minimum
  • Illinois Medicaid Crisis Assessment Tool (IM-CAT) or any state defined successor
  • Crisis Safety Plan

The MCR provider responsible for providing the services must hold the following credentials: Mental Health Professional (MHP) with direct access to a Qualified Mental Health Professional (QMHP); Qualified Mental Health Professional; or Licensed Practitioner of the Healing Arts.
A thorough clinical assessment will be conducted when making a determination to utilize crisis stabilization and community resources or to facilitate a psychiatric hospitalization.

MCR Providers work with the member and family in order to help address the family’s needs and risk factors with the MCR Provider’s services to help the member receive necessary services. MCR Providers will include the member and parent/guardian, and/or natural supports, during the screening, assessment, and disposition of the crisis situation, or as soon as possible if not immediately available.

**Community Stabilization**
If the member is deflected from hospitalization, a MCR plan is implemented to help stabilize the member in the community. The MCR plan may include emergency contact numbers and a Crisis Safety Plan unique to the member and circumstances. The plan should include concrete interventions and techniques that will assist in ameliorating the circumstances leading to the crisis situation which includes agreed upon instructions as to when to contact police or emergency medical service (EMS) if the need arises.

The MCR staff member will educate and orient the member and family to the components of the Crisis Safety Plan. Within 48 hours from the time of the mobile crisis evaluation, the MCR provider will follow up with the member and family either by phone or in person.

The MCR S provider will facilitate access to a psychiatric resource to provide consultation and medication management services as medically necessary within three (3) calendar days after the date of the Crisis event for an enrollee for whom community based services were put in place in lieu of psychiatric hospitalization.

BCBSIL’s Mobile Crisis Response Program will not require benefit prior authorization for community mental health services listed on the prior authorization list for 30 calendar days post crisis event and referral to the mobile crisis response system. Providers are required to provide notification of initiation of services to BCBS IL to ensure claims payment.

**Crisis Safety Plan Development**
Providers responsible for providing Mobile Crisis Response services will:
• Create a crisis safety plan for all members that present in Behavioral Health Crisis, in collaboration with the member and the member’s family.
• Provide Enrollees and families of members with physical copies of Crisis Safety Plans consistent with the following timelines:
  o Prior to completion of the Crisis screening as provided for any member stabilized in the community; and
  o Prior to the member’s discharge from an inpatient psychiatric hospital setting for any member that is admitted to such a facility.
• Educate and orient the member’s family to the components of the Crisis Safety Plan, to ensure that the plan is reviewed with the family regularly, and to detail how the plan is updated as necessary; and
• Share the Crisis Safety Plan with all necessary medical professionals, including Care Coordinators consistent with the authorizations established by consent or release.
If a member experiences a Crisis event, the MCR provider shall participate in an Interdisciplinary Care Team meeting for the member within fourteen (14) days after the event if the member is community stabilized and within fourteen (14) days after discharge if the member is hospitalized. The MCR Provider shall ensure that the member has a scheduled appointment with a Behavioral Health Provider and the member’s Primary Care Provider or psychiatric resource within thirty (30) days after the Enrollee’s discharge from hospitalization. If the MCR Provider receives notification from DCFS that the member has been designated a Youth at Risk, the Provider will collaborate with the member’s Care Coordinator to involve DCFS on the member’s Interdisciplinary Care Team.

Inpatient Institutional Treatment

Providers responsible for providing Mobile Crisis Response Services will facilitate the member’s admission to an appropriate inpatient institutional treatment setting when the member in crisis cannot be stabilized in the community.

- MCR providers will assist in ensuring that inpatient psychiatric Network Providers complete a physical examination to the Enrollee within twenty-four (24) hours after admission when an Enrollee requires admission to an appropriate inpatient institutional treatment setting.
- Network providers responsible for providing Mobile Crisis Response Services to inform the member’s parents, guardian, caregivers, natural supports or residential staff, if applicable about all of the available Network Providers and any pertinent policies needed to allow the involved parties to select an appropriate inpatient institutional treatment setting.
- The MCR Provider shall arrange for the necessary transportation when a member requires transportation assistance to be admitted to an appropriate inpatient institutional treatment setting and may contact BCBSIL for assistance with transportation if needed.
- The MCR providers will participate in discharge and transitional planning consistent with the following:
  - Planning shall begin upon admission;
  - Community based providers responsible for providing service upon the member’s discharge shall participate in all inpatient staffing by phone, videoconference, or in person;
  - The Provider will collaborate with the member’s BCBSIL Care Coordinator to notify the member’s family and caregiver of key dates and events related to the admission, staffing, discharge, and transition of the member, and he or she shall make every effort to involve the member and the member’s family and caregiver in decisions related to these processes;
  - The Provider and BCBSIL Care Coordinator shall ensure there is direct communication with the Enrollee and family at least once each week for 90 days following the initial mobile crisis intervention;
  - The member’s Network Provider shall educate and train the member’s family on how to use the Crisis Safety Plan while the member is receiving inpatient institutional treatment; and
  - The Network Provider shall collaborate with the member’s Care Coordinator for staffing, discharge, and transition processes, including necessary follow up appointments and referrals for the member upon transition back to the community. Appointments shall be established prior to discharge to ensure continuity across care providers.
Discharge Planning and Transitional Services

- The MCR provider and BCBSIL Care Coordination staff will arrange for discharge planning and transitional services when being discharged from higher levels of care to lower levels or community-based services. Provider shall collaborate with Care Coordinator to work with involved parties to facilitate appropriate follow-up services, including the scheduling of follow-up treatment appointments.
- The MCR provider shall encourage the Enrollee and the member’s family to contact the member’s Care Coordinator whenever a biological, psychological, or social intervention is required or requested. Provider shall collaborate with member’s Care Coordinator to ensure that entry and exit from any level of care is managed effectively, efficiently, and, when possible and appropriate, within BCBSIL’s Provider Network.
- The MCR provider shall work with BCBSIL to obtain access to non-Network Providers and to facilitate the timely provision of necessary and appropriate records to those non-Network providers.
- The MCR provider and BCBSIL Care Coordination staff will initiate follow-up care within seven (7) days after discharge from higher levels of care (e.g. inpatient behavioral health treatment), and provide oversight that appropriate levels of services are being provided.
- Network providers will notify BCBSIL or the Mobile Crisis Response Team, as appropriate, at least twenty-four (24) hours in advance of any discharge from inpatient hospital stays, including psychiatric hospital stays.

Post-Crisis Mental Health Assessment

The MCR Provider will also complete, to the extent possible, a Mental Health Assessment (MHA). The MHA is a formal process of gathering information regarding a member’s mental and physical status and presenting problems through face-to-face, video conference or telephone contact with the member and other parties that may be involved. The MHA is designed to be a comprehensive, individualized, strength-based, family-focused and conducted in a culturally and ethically responsive manner.

The Mental Health Assessment, to the extent possible, is to be completed within 30 days from the date of the crisis assessment.

MCT service planning is designed to be completed through the development, review and modification of a MCR treatment plan. Service planning is a process that results in a written treatment plan, developed with the participation of the member and parent/guardian and is based on the mental health assessment and any additional evaluations.

The treatment plan includes the agreed-upon goals of services, desired outcomes, intermediate objectives to achieve the goals, the specific Rule 132 mental health services to be provided. The services are also intended to focus on resolving the pressing issues that precipitated the need for service.

MCR Case Closing

The closure of the member’s MCR episode of care will occur when one of the following applies:
- No clinical necessity; it is determined by the MCR staff in consultation with the supervisor that there is no clinical need for MCR services
- Case is transferred; the case is transferred to another MCR provider
- Member and/or family not willing or able to participate; the member or family is no longer available to receive services or has refused services

The family will also be provided with any referral linkages that may be appropriate, and BCBSIL Behavioral Health Care Coordination staff will continue to provide care coordination.
Reporting Requirements for Contracted Mental Health Mobile Crisis Response Program Providers

The independently contracted BCCHP Mental Health Mobile Crisis Response Program Providers, including the contracted CARES program and contracted MCR Providers, are required to provide to the BCBSIL standard, mandatory reporting, per agreed upon guidelines.

The Provider shall ensure the completion of the IM-CANS on all Enrollees who require mental health services within the timelines established by the Department. As of January 1, 2019 all providers are required to complete the IM-CANS.

The Provider shall provide the Department with data related to the IM-CANS on an ongoing basis, in a manner established by the Department. As of January 1, 2019 all providers are required to complete the IM-CANS.

Chrysalis Consulting Group, Inc. (Chrysalis) is an independent company that provides Mobile Crisis Response, call center services with SASS providers. Chrysalis verifies member eligibility and dispatches credentialed providers. Chrysalis is wholly responsible for its own products and services. BCBSIL makes no endorsement, representations or warranties regarding any products or services offered by Chrysalis. If you have any questions about the products or services provided by Chrysalis, you should contact Chrysalis directly.
Member Complaints, Grievances and Appeals

A member or their representative may make a complaint or an appeal, orally or in writing, through the BCCHP Customer Service Department at 877-860-2837, or mail to:

Blue Cross Community Health Plans
Attn: Appeals & Grievances
P.O. Box 27838
Albuquerque, NM 87125-9705

BCBSIL Grievances and Appeals Process

The BCCHP Customer Service Department will attempt to resolve all complaints during the phone call; however, if Customer Service cannot resolve the complaint, they will provide the member appeal and/or grievance rights. If the member wants to file an appeal and/or grievance over the phone, Customer Service will document all pertinent facts and route the issue to Government Programs Appeals and Grievances.

1. Grievance - A grievance is a complaint about any matter other than a denied, reduced or terminated benefit for a service or item (i.e. dissatisfaction with health care services).

The BCBSIL grievances process is as follows:
   a) A grievance may be filed by the member or member's authorized representative (on behalf of the member with the member's written consent).
   b) Grievances will be acknowledged in writing within forty-eight (48) hours;
   c) A member can file an expedited grievance if BCBSIL Appeals and Grievances extend the time frame to make a decision, or refuse to grant a request for an expedited appeal. Appeals and Grievances will notify the member of their right to file an expedited grievance;
   d) The prompt and appropriate action as quickly as the case requires, including completion of a full investigation of the grievance, no later than 90 calendar days from the date the oral or written request is received; and
   e) Notification of all concerned parties upon completion of the investigation.

2. Appeals – The member may not agree with a decision or an action made by BCBSIL about a request for benefits for a service or an item requested (i.e. dissatisfaction with an adverse organization determination).

The BCBSIL appeals process is as follows:
   a) An appeal may be filed either orally or in writing by a member, member's representative (on behalf of the member with the member's written consent) within 60 calendar days from the date of the Notice of Action; Oral appeals must be followed by a written signed appeal unless the member or provider has requested an appeal on an expedited basis;
   b) Appeals will be acknowledged within 3 business days of receipt of the appeal with all information required to review the appeal;
   c) Investigation of the appeal, including any clinical care involved;
   d) The opportunity for the member or representative to submit written comments, documents or other information relating to the appeal;
   e) Appointment of a new person for review of the appeal who was not involved in the previous review;
   f) For medical necessity appeals, the case must be reviewed by a practitioner with expertise in the field of medicine appropriate to the services under review;
   g) The decision and notification, both verbally and in writing, to the member or member's authorized representative within 15 business days of receipt of appeal unless a 14 day extension is requested;
h) Prompt notification to the member, or their representative, regarding an organization’s plan to take up to a 14 calendar day extension, no later than two (2) days after the decision is made to extend the time frame;

i) Documentation of the need for any extension taken (other than one requested by the member) that explains how the extension is in the best interest of the member;

j) Notification about further appeal rights including the state fair hearing process and notification of the contact information;

k) Providing the member access and copies of all documents relevant to the appeal;

l) Expediting pre-service appeals, which include the initiation, decision and notification process;

m) Member requests and receives appeal data from Medicaid health plans; and

n) Providing notices of the appeals process to members in a culturally and linguistically appropriate manner.

3. Expedited Reconsideration (Appeal)
An expedited appeal may occur if proposed or continued services pertain to a medical condition that may seriously jeopardize the life or health of a member or if the member has received emergency services and remains hospitalized.

If the member is hospitalized, the member may continue to receive services with no financial liability until notified of the decision.

The BCBSIL has procedures for registering and responding to expedited appeals, which include:

a) Allow oral or written initiation of an expedited appeal by the member, an member’s representative or practitioner acting on behalf of the member;

b) If a request for an expedited appeal is approved, the member will be notified within 24 hours of receipt of member’s request of all information necessary to evaluate the appeal;

c) Request for necessary information from non-contracted providers;

d) Decision and notification to the member in writing and practitioner as soon as reasonably possible, but no later than 24 hours after receiving all required information; and

e) Notification of further appeal rights and the right to file an expedited grievance if the member disagrees with the decision not to expedite the determination.

4. Additional Appeal Rights
Requests from the provider(s) and/or member for further information on an appeal should be directed to the BCCHP Customer Service Department at 877-860-2837.

5. Continued Coverage
Continued coverage must be provided to the member pending the outcome of an internal appeal for covered services.
Medical Policies, New and Existing Medical Technology

Medical policies represent guidelines for use in making health care benefit coverage determinations on particular clinical issues, including new treatment approaches and medical technologies. BCBSIL evaluates emerging medical technologies as well as new applications of existing technologies through BCBSIL’s corporate medical policy development process. The evaluation process is applied to new technologies, products, drugs, medical and surgical procedures, behavioral health procedures, medical devices and any other such services as may come under policy and claims review.

The guidelines are solely intended to exist to make benefit determinations. The final decision about any service of treatment, regardless of any benefit determinations, is between a member and their health care provider.

Satisfaction with the UM Process

BCBSIL relies upon the CAHPS survey to identify areas of concern expressed by members with accessing needed care. The results of the annual survey are used to identify potential areas of concern and outline action plans.

The BCBSIL QI Department conducts a provider satisfaction survey annually. Results are monitored and the findings are reported to the QI Committee for review, discussion and the development of an action plan, if deemed appropriate.

Pharmaceutical Management

Pharmacy benefits are administered by Prime Therapeutics (Prime), BCBSIL’s Pharmacy Benefit Manager.

Prime is a third party vendor pharmacy benefit manager (PBM) that administers certain core services on behalf of BCBSIL. Such services include claims processing, retail pharmacy network management and mail order services. Prime also has the capability to allow electronic prescribing, or e-prescribing. The goal of the Pharmacy Benefit Management program is to help:

- Contain rapidly rising drug costs,
- Maintain and improve the quality of care delivered to BCCHP members,
- Facilitate access, and
- Encourage appropriate use of cost-effective drug therapies.

To achieve this goal, BCBSIL employs a number of industry-standard management strategies in order to ensure appropriate utilization. These strategies include, but are not limited to, formulary management, benefit design modeling, specialty pharmacy benefits and clinical programs.
Utilization Review
BCBSIL reviews and evaluates the following data, and such other information as BCBSIL deems appropriate in order to identify any patterns of potentially inappropriate utilization:

- Inpatient admissions/1000 (including acute and Long-Term acute care);
- Inpatient days/1000;
- Average length of stay (LOS);
- Outpatient surgery/1000;
- ER visits;
- BH and CD days/1000; and
- Member satisfaction data from annual surveys

Also, claims payment data, denial files, customer service issues, quality of care issues, diagnosis, referrals, case detail, member satisfaction and appeals are also utilized to identify potential problems. Data is collected at the provider level. When deemed appropriate, an action plan is requested from the provider. It may include any of the following components: further data collection, written requests for action, meeting with the network consultant and the provider.

Notice to Prescribers of Clinical Review Activities by Medicaid Managed Care Organization (“MCO”) Pharmacists
Pursuant to section 720 ILCS 570/316(g) of the Prescription Monitoring Program, as amended by House Bill 4650 (Public Act 100-1005) and set forth in the Illinois Controlled Substances Act (the “Act”), prescribers are notified that Blue Cross Blue Shield of Illinois (“BCBSIL”) MCO pharmacists may conduct clinical review activities of services provided to persons covered by the MCO to determine compliance with section 720 ILCS 570/314.5 of the Act, titled “Medication shopping; pharmacy shopping.”

Transition of Care
BCBSIL will help facilitate transition of care when a member needs assistance in moving from one level of care to another or from one provider to another. Transitions of care protocols are applicable when a member is displaced by provider de-participation or is displaced by termination of a provider contract. The Care Coordinator will help facilitate location of new in-network providers for the member. New members are assigned a Care Coordinator who will work with the member to identify in-network providers within 180 days of enrollment. BCCHP members in one of these situations who are receiving frequent or ongoing care for a medical condition or pregnancy beyond the first trimester may request assistance to continue with established specialists for a defined time. Such members should be directed to the BCCHP Customer Service Department at 877-860-2837 for help in this matter.

Quality Improvement
BCBSIL is committed to pursuing opportunities for improvement of health, health outcomes and service through ongoing comprehensive assessment and quality improvement activities. BCBSIL establishes and maintains the Quality Improvement (QI) Program, which is designed to lead to improvements in the delivery of health care and services, inclusive of both physical and behavioral health, to its members, as well as in all health plan functional areas. The quality improvement initiatives strive to achieve significant improvement over time in identified clinical care and non-clinical care/service areas that are expected to have a favorable effect on health outcomes, service received and member and provider satisfaction.

Oversight for the Quality Improvement Program
The Board of Directors of Health Care Service Corporation, a Mutual Legal Reserve Company (HCSC) has the authority, responsibility and overall accountability for the Illinois Medicaid QI Program. The Board periodically reviews QI activities, provides feedback and recommendations and approves the QI Program, Annual Work Plan and Evaluation. Responsibility for ensuring development, implementation, monitoring and evaluation of the QI Program is delegated to the Illinois Medicaid Quality Improvement Team. Quality
oversight encompasses all functional units within Illinois Medicaid with individual subcommittees, teams and/or functional units providing reports to the Quality Improvement Team, and Executive Committee as applicable.

All aspects of the program are documented in the Quality Improvement Program description and the Quality Improvement Work Plan, in accordance with all relevant regulations and standards.

Clinical aspects of the QI program are reviewed by network physicians who sit on one or more of the Quality Committees. Operations are managed by a Director of QI and a Medical Director for QI. Close operational linkages are found between the QI Program and the programs for Utilization Management, Condition/Disease Management, Case Management, and Network Services.

Responsibilities of the Quality Committees include:

- Review and approval of the annual Quality Improvement Program Descriptions
- Review and approval of the annual Quality Improvement Work Plans
- Monitoring and analysis of reports on QI activities from subcommittees
- Review and approval of annual Quality Improvement Program Evaluation
- Review and approval of Performance Improvement Projects
- Recommendation of policy decisions
- Analysis and evaluation of the results of QI activities
- Review of analysis of significant health care disparities in clinical areas
- Review of analysis of information, training and tools to staff and practitioners to support culturally competent communication
- Review of analysis of onsite audit results to understand the differences in care provided and outcomes achieved
- Review of analysis and evaluation of member complaints and appeals
- Review of analysis and evaluation of populations with complex health needs
- Ensuring practitioner participation in the QI Program through project planning, design, implementation and/or review
- Institution of needed actions
- Ensuring follow-up, as appropriate
Quality Monitoring Activities
Ongoing monitoring of specific quality indicators is an important component of the BCBSIL Quality Improvement (QI) program. Indicators are selected based on important aspects of care for BCCHP members including, but not limited to, utilizing medical/surgical, behavioral health and chemical dependency data. These indicators are relevant to the enrolled population; are designed to be reflective of high volume or high-risk services; encompass preventive, acute and chronic care and span a variety of delivery settings. Categories of indicators may include the following:

- Performance Improvement Project (PIP) data
- HEDIS® Measures¹
- Practitioner performance indicators
- Survey data
- Utilization Management (UM) quality indicators/performance measures
- Case Management (the Model of Care required for all BCCHP members)
- BCBSIL quality indicators/performance metrics
- Waiver requirements (additional case management) quality indicators/performance metrics
- Utilization data
- Complaint data
- Access and availability data
- Membership data
- Beneficiary experience

Quality indicators are usually selected on the basis of their objectivity, measurability and validity. Performance goals or benchmarks may exist or may be established after baseline measurements have been completed.

Quality indicators are reported to the Quality Committee(s) for review and recommendations, including the development of corrective action and/or performance improvement plans.

Quality Improvement Program Documents
QI Program Description
The QI Program description is reviewed annually and may be updated as needed.

QI Work Plan
The QI Program Work Plan is initiated annually based upon the planned activities for the year and includes improvement plans for issues identified through the evaluation of the previous year’s program. The scope of the BCCHP Work Plan includes aspects of the QI Program and the activities appropriately linked to the established goals and objectives. The work plan may include time frames for accomplishing each planned activity. The document may be updated throughout the year to reflect the progress on QI activities and new initiatives as they are identified.

¹ HEDIS is a registered trademark of NCQA.
QI Program Evaluation
On an annual basis, the QI Program is evaluated. The QI Program may be updated as needed. The evaluation process includes:

- A description of completed and ongoing QI activities that address quality and safety of clinical care and quality of service rendered by network providers.
- Trending of measures to assess performance in the quality and safety of clinical care and quality of service rendered by network providers.
- Analysis of the results of QI initiatives, including barrier analyses.
- Evaluation of the overall QI Program, including progress toward influencing network-wide safe clinical practices.

Disclosure of the QI Program Information
Information regarding the QI Program is made available to providers and to members, upon request.

National Committee for Quality Assurance (NCQA)
NCQA is the major accrediting body for health plans. NCQA publishes a set of standards developed by a national committee with representation from physicians, the business community, government, and consumers. Compliance with these standards is one way to measure a health plan’s commitment to quality. Interested parties can learn about the standards and obtain other useful information directly from NCQA at its website: ncqa.org. HEDIS data are collected from claims, encounters and may be supplemented with medical chart review. HEDIS Performance Measures results are evaluated on an annual basis to monitor improvement. The extent to which a provider’s practice cooperates with our ongoing efforts to meet NCQA standards may be reviewed at the time of recredentialing. HEDIS data submitted to National Committee for Quality Assurance (NCQA) and other entities are audited by an NCQA certified HEDIS auditor.

Our current accreditation status may be found on ncqa.org.

Healthcare Effectiveness Data and Information Sets (HEDIS)
BCBSIL collects data to complete the annual HEDIS audit. Results from the annual HEDIS audit are used to guide various quality improvement efforts at BCBSIL. Many of the measures in HEDIS focus on preventive health care services and wellness care as well as monitoring health care of members with specific acute illness (e.g., Upper Respiratory Infection) or chronic disease (e.g., diabetes, asthma). To determine if the recommended services reported in the annual HEDIS rates to the state were provided to our members, BCBSIL looks first at its claims (or encounter) data. If BCBSIL is unable to identify that a particular service was provided from the claims (or encounter) data, BCBSIL conducts an annual medical record review to determine if the service was provided but for some reason not in the claims data (perhaps a bill was not submitted). If any of your members are selected for medical review, representatives from BCBSIL will conduct a chart review to collect necessary information. As a participating BCCHP provider, one or more of your patients may be randomly selected for review and BCBSIL asks for your cooperation in collecting this important information.
BCBSIL Quality Improvement Program Data Submission and Calculation

Quality Improvement Program (QIP) Clinical Measures are based on BCCHP claims data, pharmacy data, and outcomes data. The PCP or the medical group, as appropriate, is required to submit complete and accurate data for each of the QIP Clinical Measures as requested by BCBSIL. The data must be submitted in a format acceptable BCBSIL and within the time period established in the QIP instructions.

While BCBSIL does not intend on conducting any medical record review to validate QIP clinical measures, BCBSIL reserves the right to conduct an audit to confirm the results.

All documentation requested by BCBSIL to support any claims for payment must be received by BCBSIL within seven days of the request for documentation, unless the QIP instructions allow more time for the PCP to provide such documentation. BCBSIL may reduce or eliminate any payments that the PCP or the medical group may be eligible for if the PCP or the medical group either refuses or delays providing such documentation.

Various components of the BCBSIL QI Program incorporate elements of member rights, which may include:
- Policies on inquiries and complaints
- Policies on appeals
- Policies on quality of care complaints
- Access and availability standards
- Member involvement in satisfaction surveys
- Member involvement in the development of their care plan and in their Interdisciplinary Care Team

In addition, the policy on Member Rights and Responsibilities further defines the relationship between the member, the practitioner and BCBSIL.

Critical Incidents

A critical incident is an incident involving an member that may include, but is not limited to, abuse, neglect or exploitation; death due to substantiated cases of abuse, neglect or exploitation; additional critical incidents that has the potential to place a member or member’s services, at risk but does not rise to the level of abuse, neglect or exploitation; such as restraint applications, seclusion or other restrictive interventions, environmental hazards; law enforcement intervention; or emergency services, and which encompasses the full range of physical and mental health and home and community-based services.

Critical Incidents of abuse, neglect and financial exploitation must be reported to the appropriate authorities, as mandated by state law. In addition to reporting abuse, neglect and exploitation to the appropriate agency Providers are also required to report the critical incident to BCBSIL. Reporting an incident gives the victim the opportunity to receive the help they need to stop the abuse; this also may help reduce risk of abuse in the future.

Potential Quality of Care Issues

A potential quality of care issue can be reported to the Quality Improvement Department either through a member grievance or by providers, BCBSIL staff or other entities that involve quality of care. The Quality Improvement Program has a process that seeks to identify research and resolve quality of care issues. All Quality of Care (QOCs) issues are investigated and if there is validation of the QOC, specific actions may be taken to help address and/or avoid a recurrence. This may include referring the quality of care issue to peer review. QOCs are tracked and trended and a summary report is presented to the Clinical Quality Committee quarterly. QOCs are also tracked for credentialing purposes.
All quality of care grievances filed with BCBSIL are investigated. Based on the investigation, if there is validation of quality concerns, the independently contracted provider may be requested to take specific actions to help address and/or avoid a recurrence.

**Member and Provider Satisfaction**

The monitoring, evaluation and improvement of member satisfaction are important components of the BCBSIL QI Program. This is accomplished through the use of surveys, as well as through the aggregation, trending and analysis of member complaint and appeal data including the following categories: quality of care, access, attitude and service, billing and financial issues and quality of the practitioner’s office site. In addition to the administration of surveys, BCBSIL encourages members to offer suggestions and express concerns utilizing customer service telephone lines and request for comments in survey instruments.

The following surveys are some of the tools utilized in the assessment of member satisfaction:

- CAHPS Survey
- Participant Outcomes and Status Measures (POSM)
- Quality of Life Survey
- Condition Management Surveys
- Behavioral Health Survey, if applicable

In addition to assessment of member satisfaction, providers are surveyed to assess their satisfaction with various aspects of the BCCHP program including Utilization Management and Case Management. In addition, BCCHP practitioner needs and expectations may be voiced at regular open meetings including BCCHP Administrative Forums and Managed Care Roundtables. BCBSIL uses information from practitioner surveys in ongoing program evaluation.

BCCHP providers may be surveyed to assess their overall satisfaction. For example, they may be asked about their satisfaction with BCBSIL support staff (e.g., Provider Network Consultants, Nurse Liaisons) as well as other questions related to network support. Information obtained through surveys is utilized in network development and planning.

BCBSIL also solicits input from providers and facilities by the following means:

- BCCHP Consumer Advisory Committee
- Telephonic encounters
- Ad hoc advisory groups
- Face-to-face meetings

**Missed or Cancelled Appointments**

Providers must:

- Document in the member’s medical record, and follow-up on missed or cancelled appointments.
- Conduct affirmative outreach to a member who misses an appointment by performing the reasonable efforts to contact the enrollee.

**Continuity and Coordination of Care**

Continuity and coordination of care are important elements of care and as such are monitored through the BCBSIL QI Program. Opportunities for improvement in the continuity and coordination of medical care may be selected from across the delivery system, including settings, transitions in care and patient safety. In addition, coordination between medical and behavioral health care is also monitored.
Practice Guidelines

Development and Updates

BCBSIL has developed and implemented evidenced-based preventive and clinical practice guidelines and criteria to assist clinical decision-making by patients and practitioners, provide standards and measures to help assess and improve the quality of care and encourage uniformity and consistency in the provision of care. Clinical practice guidelines and clinical criteria are developed and derived from a variety of sources, including recommendations from specialty and professional societies, consensus panels and national task forces and agencies, reviews of medical literature and recommendations from ad hoc committees.

Clinical practice guidelines and clinical criteria are provided for informational purposes only and are not a substitute for the independent medical judgment of health care providers. Providers are required to exercise their own medical judgment in providing health care to members.

The BCBSIL Clinical Management Committee may review and, as necessary, update clinical criteria and clinical practice guidelines. These guidelines are updated annually and when new significant findings or major advancements in evidence-based best practices and standards of care are established. Questions and feedback about the guidelines can be directed to 312-653-6674.

Service Quality Improvement

The ability to provide quality health care correlates strongly with services that support the managed care organization and health care delivery system. Further, satisfaction with BCBSIL is often derived from the quality of service the members receive. Service standards have been established to help prevent issues, whenever possible, and provide consistent, timely and accurate information and assistance to members, physicians, providers and other customers. The standards are routinely monitored. Surveys and complaints are monitored to help ensure the standards established are appropriate and meet the needs of the organization and customers. Service indicators include:

- Inquiry and complaint rates
- Telephone access standards
- Results from member and provider appeals
- Compliance with provider and practitioner access standards
- Results from member and provider surveys
- ADA compliance

Each of the standards allows member satisfaction with key service indicators to be assessed and interventions implemented as necessary. The key areas of focus are likely to include, but are not limited to,

- Customer service
- Claims payment
Claim Submission
Providers should use best efforts to submit claims electronically:
Facility and Professional claims – Payer ID: MCDIL

Please note that the alpha prefix for BCCHP members is XOG. The alpha prefix must be included as part of the member ID number.

Paper claims should be sent to the following address:
Blue Cross Community Health Plans
c/o Provider Services
P.O. Box 3418
Scranton, PA 18505

Providers should use their best efforts to submit claims for covered services electronically. Providers are required to prepare and submit to BCBSIL, according to the billing procedures established by BCBSIL, billing and encounter information for members who have received covered services from a provider. Providers are required to submit all claims eligible for reimbursement within 180 days from the date of service. BCBSIL may, at its sole discretion, deny payment for any such fee for service claim(s) received after 180 days from the date of service.

Claims must be submitted in a format that complies with the transaction and code set standards established by the Health Insurance Portability and Accountability Act of 1996 and the Act's implementing regulations (collectively “HIPAA”). Claims not submitted via the defined electronic and paper formats are subject to rejection.

Claim Payment
BCBSIL will pay providers for covered services authorized by BCBSIL and provided to eligible members. Providers agree to accept payment from BCBSIL as payment in full for the provision of covered services to members, as per the Medical Service Agreement, less any applicable copayments, deductibles, coinsurance and/or cost-share amounts required directly from the member, if any.

As a reminder, checking eligibility and benefits is an important first step, prior to rendering services and submitting claims, as some services may require benefit prior authorization by BCBSIL. Additional information on services requiring benefit prior authorization may be found in the Utilization Management section of this manual.

Claim Payment Adjustments.
BCBSIL will process accurate and complete provider claims according to BCBSIL claims processing procedures and applicable Laws, rules and regulations. Such claims processing procedures may include, but are not limited to, system applications which review compliance with standards for claims coding.

In addition, providers should be aware that BCBSIL may make retroactive adjustments to the payment arrangements outlined in the Medical Service Agreement for reasons including, but not limited to, changes to member enrollment status and claims payment errors.

Provider Claim Disputes
Providers may dispute a claims payment decision by requesting a claims review. Providers may contact BCBSIL at 877-860-2837 or fax 855-322-0717 or mail claims disputes to the following address, Blue Cross Community Health Plans
C/O Provider Services
PO Box 4168
Scranton, PA 18505,
Providers are required to notify BCBSIL in writing within 60 days of receipt of payment or such shorter time frame as required by applicable Law. Unless the provider disputes BCBSIL payment within the time frame indicated above, prior payment of the disputed claim(s) shall be considered final payment in full and will not be further reviewed by BCBSIL.

Written notification of payment contestation must include at a minimum the following information:
Member name and identification number, date of service, claim number, name of the provider of service, charge amount, payment amount and an explanation of the basis for the contestation. BCBSIL will review such contestation(s) and usually will respond to providers within 45 days of the date of receipt by BCBSIL of such contestation. BCBSIL’s decision on the matter will be final, unless the provider elects to appeal in accordance with the terms of the Medical Service Agreement. Failure to contest the amount of any claim hereunder within the time specified above will result in a waiver of the provider’s right to contest such claims payment.

Claims to State or Federal Government Prohibited
Providers cannot request payment for covered services provided in any form from HFS, HHS or any other agency of the State of Illinois or the United States of America or their designees for items and services furnished in accordance with the Medical Service Agreement, unless approved in advance by BCBSIL and HFS.

Coding Related Updates
Provider acknowledges and agrees that BCBSIL may apply claim editing rules or processes, in accordance with correct coding guidelines and other industry-standard methodologies, including, but not limited to, CMS, CPT, McKesson and Verscend coding process edits and rules.

Recovery of Overpayments
Providers are required to provide notice to BCBSIL of any overpayment(s) identified by the providers, including duplicate payments, within 10 calendar days of identifying such overpayment, and unless otherwise instructed by BCBSIL in writing providers are required to refund any amounts due to BCBSIL within 30 calendar days of identifying such overpayment. In the event of any overpayment, duplicate payment, or other payment in excess of that to which the providers is entitled for covered services furnished to a member, BCBSIL may recover the amounts owed by way of offset or recoupment from current or future amounts due from BCBSIL to the provider.

Balance Billing
An important protection for BCCHP members when they obtain plan-covered services is that they do not pay more than the BCBSIL-allowed amount.

Payment will not be made by BCBSIL for services rendered to members that are determined by BCBSIL not to be medically necessary, as defined in the member handbook. In the event of a denial of payment for services provided to members that are determined by BCBSIL not to be medically necessary, providers shall not bill, charge, seek payment or have any recourse against a member for such services. Providers may bill the member for services that are determined not to be medically necessary if independently contracted provider provides the member with advance written notice that informs the member that such services may be deemed by BCBSIL to be not medically necessary and provides member with an estimate of the cost to the member for such services and the member agrees, in writing that is signed and dated, to assume financial responsibility in advance of receiving such services.
Treating Family Members
Participating providers may not bill BCBSIL for health care services rendered to themselves or their immediate family members, or designate themselves as a primary care physician, for any purpose, for themselves or their immediate family members. An "immediate family member" is defined as: (i) current spouse; (ii) eligible domestic partner; (iii) parents and step-parents of the spouse or domestic partner; (iv) children and grandchildren (biological, adopted or other legally placed children) of the spouse or domestic partner; and, (v) siblings (including biological, adopted, step, half or other legally placed children) of the spouse or domestic partner. BCBSIL will not process any claims for services, nor make payment for any claims for services, rendered by a participating provider to the provider's self, or to the provider's immediate family members. In the event that BCBSIL determines that a benefit was paid in error, BCBSIL has the right to request and receive a refund of the payment from the participating provider.

Coordination of Benefits
If a member has coverage with another plan that is primary to Medicaid, please submit a claim for payment to that plan first. The amount payable by BCBSIL will be governed by the amount paid by the primary plan and Medicaid Secondary Payer law, regulations and policies.

If BCBSIL is not the primary payer, the provider must bill payer(s) with the primary liability prior to submitting bills for the same services to BCBSIL. The provider must also provide BCBSIL with relevant information it has collected from members regarding coordination of benefits. If BCBSIL is not member's primary payer, the provider's compensation by BCBSIL shall be no more than the difference between the amount paid by the primary payer(s) and the applicable rate under the medical service agreement.

Provider payment will not be delayed due to BCBSIL recovery efforts from third parties.

Worker's Compensation
The Illinois Workers' Compensation Act provides that an insured employee has the right to obtain medical care for treatment of a work related injury. If the employee chooses to use the services of the chosen provider, the charges or equivalents for these services should be recouped through the employer's Workers' Compensation carrier. The provider must not bill the member. A member can be questioned to determine whether the injury a) occurred at work or b) during the course of their work duties.

Regular follow up by the provider, via certified mail, is recommended to ensure reimbursement. Liens should not be issued for Workers' Compensation claims.
BCCHP Medical Home Program (MHP)

BCCHP supports the concept of medical home by offering PCPs an opportunity to participate in the BCCHP Medical Home Program (MHP). PCPs meeting the MHP practice standard requirements may be eligible to receive a monthly Care Coordination Fee for each member assigned to the PCP. Please reference Medical Service Agreement for more details on Care Coordination Fee’s, including eligibility requirements.

A Medical Home Model is central to helping develop a culture of health between medical providers and members. Enrollment in the Medical Home Program by IPA PCPs is voluntary. BCCHP will strive to identify and support Medical Home IPA PCP Practices that are able to better serve the health care needs of HMO Members. BCCHP will assist identified IPA PCP Practices in converting to and maintaining a Medical Home Model by assessing their progress in the categories referenced below:

- BCCHP Policies and Procedures
- Performance Standards and Compliance
- Patient Care Plan Participation
- Quality Improvement Program
- Patient-Centered Access and Continuity
- Team-Based Care and Practice Organization
- Knowing and Managing Your Patients
- Care Management and Support
- Care Coordination and Care Transitions

Patient Care Plan Payment

Members enrolled in the BCCHP will receive an Individual Patient Care Plan. BCBSIL Care Managers will be responsible for the developing the Patient Care Plan in conjunction with the member’s PCP. BCBSIL agrees to reimburse PCPs participation in interdisciplinary team meetings once per year, per member. The PCP must clearly document the interdisciplinary team meeting in the Member’s chart, including all the particulars relating to the meeting, including, but not limited to, all the particulars discussed, the attendees to the meeting, the Member’s medical history, all progress and regression with respect to any key diseases, and treatment plans and steps that the Member must take to address such conditions. Providers may submit for reimbursement via the normal claims process utilizing CPT code 99339.

Quality Improvement Program Payment

The BCBSIL Quality Improvement Program (QIP) is intended to recognize the PCP for maintaining quality and patient satisfaction standards in the delivery of covered services.

QIP Clinical Measures and performance thresholds will be established by BCBSIL on annual basis. QIP Clinical Measures and performance thresholds may be modified by BCBSIL to comply with the contractual requirements from HFS.

If applicable, BCBSIL shall reimburse the PCP for each eligible BCCHP member enrolled with the PCP who received either a targeted Clinical Measure service or achieved the targeted outcome according to the payment terms of the provider’s MSA.
Illinois Medicaid Shared Savings Program

This section only applies to providers that are participating in a Value Based Program, as specified in their Provider Agreement.

The HMO Shared Savings Program is designed to recognize eligible IPAs for the delivery of quality care that is economical and efficient. The savings generated will be shared with eligible IPAs based on IPA’s cost of care relative to both its own historical cost of care for members assigned to IPA and historical HMO averages for the similar HMO member population as a whole. This recognizes eligible IPAs for providing efficient care and managing cost growth. All care coordination and value based care program dollars are included in calculation of shared savings. Please see the illustration below for calculations.

Illustrative Calculation for January 1, 2018
B) Absolute Performance Component

\[
\text{IPA's Savings PMPM for Performance Period for Absolute Performance} = \text{Absolute Cost Threshold PMPM for Performance Period} - \text{Cost of Care PMPM for the Performance Period}
\]

**Absolute Cost Threshold for Performance Period:**

\[
\text{Average Per Member Premium for the Members assigned to the IPA during Performance Period} \times \text{Medical Cost Percent of Premium}
\]

**Medical Cost Percent of Premium, from Rate Book:**

\[
\text{Base Medical Rate component PMPM, from the Data Book for the Performance Period} + \text{total MCO Effective Rate PMPM, from the Data Book for the Performance Period}
\]

\[\text{= From actual experience} \quad \text{= From Rate Book} \quad \text{= Calculation}\]

1. Shared Savings Only (Cost of Care PMPM for the Performance Period must be greater than the Absolute Cost Threshold PMPM for Performance Period)
Share of Savings as Payment

The IPA will be eligible for a payment which is the greater of A or B

A: \[ \text{Shared Savings Payment PMPM for Performance Improvement} \times \begin{cases} 0.20 \times (\text{Shared Savings Percentage for Performance Period}) \times \left( \frac{\text{Savings PMPM for Performance Period}}{\text{Benchmark Cost PMPM for Performance Period}} \right) \\ 0.30 \times (\text{Shared Savings Percentage for Performance Period}) \times \left( \frac{\text{Savings PMPM for Performance Period}}{\text{Benchmark Cost PMPM for Performance Period}} \right) \end{cases} \]

B: \[ \text{Shared Savings Payment PMPM for Absolute Performance} \times \begin{cases} 0.50 \text{, capped at } 10\% \text{ of the (Absolute Cost Threshold for IPA's actively enrolled members)} \end{cases} \]
Absolute Cost Threshold PMPM for Performance Period
The Absolute Cost Threshold PMPM for Performance Period will be calculated in each year as [Medical Cost Percent of Premium] multiplied by [the Average Per Member Premium]. The Absolute Cost Threshold PMPM for Performance Period is the threshold that the Cost of Care PMPM for the Performance Period will be compared to, in order to determine if the IPA is eligible for the Shared Savings Payment PMPM for Absolute Performance. If the IPA's Cost of Care PMPM for Performance Period falls below the Absolute Cost Threshold PMPM for Performance Period, the IPA will be eligible for Shared Savings Payment PMPM for Absolute Performance. The average will be calculated for members assigned to the IPA based on individual premium data taken from Member enrollment data that is provided by the State for each given month.

Americans with Disabilities Act (ADA)
A federal law that prohibits discrimination against individuals with disabilities in everyday activities, including medical services.

ADA Accessible
A term defined under the ADA that generally requires that any site, facility, work environment, service or program be easy to approach, enter, operate, participate in and/or use safely and with dignity by a person with a disability.

Adults with Disabilities
An individual who is 19 years of age or older, who meets the definition of blind or disabled under Section 1614(a) of the Social Security Act (42 U.S.C.1382) and who is eligible for Medicaid.

Advance Directive
An individual’s written directive or instruction, such as a power of attorney for health care, a living will or a mental health treatment preference declaration, for the provision of that individual’s health care if the individual is unable to make his or her health care wishes known.

Appeal
A request for review of an organization determination.

Action
The denial or limitation of authorization of a requested service; reduction, suspension, or termination of a previously authorized service; denial of payment for a service; failure to provide services in a timely manner; failure to respond to an appeal in a timely manner, or solely with respect to an MCO that is the only contractor serving a rural area, the denial of a member’s request to obtain services outside of the contracting area.

Affordable Care Act (ACA) Adult (ACA Adult)
Participant eligible for HFS Medical Programs through the ACA as of January 1, 2014, and pursuant to 305 ILCS 5/5-2(18).

Average Per Member Premium
The Average Per Member Premium for the Members assigned to the IPA during Performance Period. The average will be calculated for members assigned to the IPA based on individual premium data taken from Member enrollment data that is provided by the State for each given month.
Base Medical Rate
The component of revenue PMPM attributable to medical costs and is specified in the Data Book.

Baseline Period
Defined as the twelve (12) months immediately preceding the Performance Period. The IPA must have participated in a HMO Medicaid Plan for at least one full calendar year in order to have an established baseline year with the HMO.

Basic Benefits
All health care services covered under Medicaid. All members of BCCHP are eligible to receive all basic benefits.

Benchmark Cost PMPM for Performance Period
Equal to the IPA’s Cost of Care PMPM for Baseline Period, multiplied by (1 plus Benchmark Cost Trend Factor).

Benchmark Cost Trend Factor
Defined as the increase in the medical cost component of revenue PMPM, called Base Medical Rate in the most recent Data Book), reduced by three (3) percentage points. The increase will be calculated as the percentage increase in the Base Medical Rate between the Performance Period and the period defined in the most recent Data Book for the period immediately preceding the Performance Period, and annualized. The increase in Base Medical Rate will be based on the IPA’s Members enrolled in both the Performance Period and the previous year for the calculation of the Benchmark Cost PMPM for Performance Period. If the Data Book periods do not represent two consecutive one-year periods, the Benchmark Cost Trend Factor will be adjusted to be on an annualized basis by HMO.

CAHPS
Consumer Assessment of Healthcare Providers and Systems (CAHPS) are a set of standardized surveys that assess member satisfaction with the experience of care. Blue Cross Community contracts with an NCQA-certified vendor to administer the survey. This survey is administered annually and is based on randomly selected members. The NCQA-certified vendor reports the data to the Quality Improvement Department who analyzes and evaluates the results of the survey to identify areas of member dissatisfaction for corrective action as well as areas of member satisfaction in order to continue improvement. The results of the survey are reported to Healthcare and Family Services.

Care Coordinator
Care Coordinator provides Care Management, and working with a member and care team, establishes a Care Plan for the member.

Care Management
Care management is a program designed to assist members in gaining access to services, including medical, social, educational and other services, regardless of the funding source for the services. Care management is a collaborative process that is designed to assist members and their providers to assess, plan, implement, coordinate, monitor and evaluate the options and services (Medicaid) required to meet the member’s needs across the continuum of care.
Care Plan
A care plan is a member-centered, goal-oriented, culturally relevant and logical written plan of care with a service plan component, if necessary, that is designed to assist the member to obtain access, to the extent applicable, medical, medically-related, social, behavioral and necessary covered services, including long-term services and supports, in a supportive, effective, efficient, timely manner that emphasizes prevention and continuity of care.

Center for Health Dispute Resolution (CHDR)
An independent Centers for Medicare & Medicaid Services (CMS) contractor that reviews appeals by members of managed care plans, including BCCHP.

Chronic Health Condition
A health condition with an anticipated duration of at least 12 months.

Contracted Facility
Any independently contracted health facility; hospital, laboratory or other institution licensed and/or certified by the State of Illinois and Medicaid to deliver or furnish health care services and has a written agreement to provide services directly or indirectly to BCCHP members pursuant to the terms of the Agreement for facility services.

Contracted Pharmacy
Any independently contracted pharmacy that has an agreement to provide BCCHP members with medication(s) prescribed by each member's contracted provider in accordance with BCCHP.

Contracted Provider
Any independently contracted physician or practitioner, to include, but not limited to, a physician, physical therapist, psychologist, and any other provider of medical services, licensed and/or certified by the State of Illinois and Medicaid to deliver or furnish health care services and has a written agreement to provide services directly or indirectly to BCCHP members pursuant to the terms of the Medical Service Agreement.

Cost of Care PMPM for Baseline Period
Equal to the sum of (i) IPA’s Incurred Claims PMPM for Baseline Period, (ii) IPA’s Clinical Measure Incentive Program (CMIP) payment PMPM for Baseline Period, (iii) IPA’s Medical Home Scoring and Care Coordination payment PMPM for Baseline Period, in aggregate divided by the number of member months.

Cost of Care PMPM for Performance Period
Equal to the sum of (i) IPA’s Incurred Claims PMPM for Performance Period, (ii) IPA’s CMIP PMPM for Performance Period, (iii) IPA’s Medical Home Scoring and Care Coordination Payment PMPM for Performance Period, in aggregate divided by the number of member months. In the calculation of the Savings PMPM for Performance Improvement, the Cost of Care PMPM for Performance Period will be compared to the Benchmark Cost PMPM for Performance Period to determine shared savings.
Covered Services
Those benefits, services or supplies that are covered under BCCHP and approved for a member by BCCHP as more fully set forth in the BCCHP plan document.

Critical Incident
A reportable incident involving an eligible recipient that may include, but is not limited to, abuse, neglect or exploitation; death due to substantiated cases of abuse, neglect or exploitation; additional critical incidents that has the potential to place a member or member’s services, at risk but does not rise to the level of abuse, neglect or exploitation, such as restraint applications, seclusion or other restrictive interventions, environmental hazards; law enforcement intervention; or emergency services, and which encompasses the full range of physical and mental health and home and community-based services.

Cultural Competence
Generally considered the understanding of those values, beliefs and needs that are associated with age, gender identity, sexual orientation and/or racial, ethnic or religious backgrounds of members receiving health care services. Cultural competence also includes a set of competencies, which are required to ensure appropriate, culturally sensitive health care to persons with congenital or acquired disabilities.

Data Book
The document most recently entitled Medicaid Managed Care Data Book, issued by the State of Illinois Medicaid actuary.

DHS-SUPR
The Division of Substance Use Prevention and Recovery (SUPR), or its successor, within Illinois Department of Human Services (DHS) that operates treatment services for alcoholism & addiction through an extensive treatment provider network throughout the State of Illinois.  
http://www.dhs.state.il.us/page.aspx?item=29725

DCFS
The Illinois Department of Children and Family Services and any successor agency.  
http://www.state.il.us/dcfs/index.shtml. 1.17.40

DCMS
The Illinois Department of Central Management Services and any successor agency.

Delegated Activities
Delegation occurs when an organization gives another entity the authority to carry out a function that it would otherwise perform. Delegation or Subcontracting is the process by which an organization contracts with or otherwise arranges for another entity to perform functions and to assume responsibilities on behalf of the health plan, while the health plan retains final authority to provide oversight to the delegate.

Determination of Need (DON)
The tool used by the State of Illinois or the Department's authorized representative to determine eligibility (level of care) for nursing facility and home and community-based services (HCBS) waivers for persons with disabilities, HIV/AIDS, brain injury, supportive living and the elderly.

DHS
The Illinois Department of Human Services and any successor agency.

DHHS
The United States Department of Health and Human Services and any successor agency.
**DHS-DDD**
The Division of Developmental Disabilities within Illinois Department of Human Services that operates programs for persons with developmental disabilities.

**DHS-DMH**
The Division of Mental Health, and any successor agency, within Illinois Department of Human Services that is the state mental health authority.

**DHS-DRS**
The Division of Rehabilitation Services, and any successor agency, within Illinois Department of Human Services that operates the home services programs for persons with physical disabilities, brain injury and HIV/AIDS.

**DHS-OIG**
The Department of Human Service Office of Inspector General, and any successor agency, is the entity generally responsible to investigate allegations of abuse and neglect of people who receive mental health or developmental disability services in Illinois and to seek ways to prevent it.

**Disenrollment**
The process by which a member's participation in BCCHP is terminated. Reasons for disenrollment include, but are limited to, death, loss of eligibility for BCCHP or choice not to participate in BCCHP. Disenrollment at the direction of the member may also be referred to as “opt-out.”

**DoA**
The Illinois Department on Aging, and any successor agency.

**DPH**
The Illinois Department of Public Health, and any successor agency, the State Survey Agency responsible for promoting the health of the people of Illinois through various means, including, but limited to, the prevention and control of disease, injury, licensure and certification of nursing facilities (NFs) and Intermediate Care Facility Services for the Developmentally Disabled (ICF/DD) facilities.

**Downstream Entity**
Downstream Entity has the same definition that is found in 42 C.F.R. §§ 422.2 and 423.4, which, at the time of execution of this Agreement, means any person or entity that enters into a written arrangement with persons or entities involved in the MMAI, MA and/or Medicare Part D Programs, below the level of the arrangement between HMO and a First-Tier Entity, such as IPA.

**Eligible Member Months**
Means the sum of all number of eligible Members assigned to the IPA in each month of the Performance Period.

**Effectuation**
Compliance with a reversal of BCBSIL’s original adverse organization determination. Compliance may entail payment of a claim, authorization for a service or provision of services.
Emergency Medical Condition
Medical conditions of a recent onset and severity, including, but not limited to, severe pain, that would lead a prudent layperson possessing an average knowledge of medicine and health to believe that his or her condition, sickness or injury is of such a nature that failure to receive immediate medical care could result in:

- Serious jeopardy of the patient’s health;
- Serious impairment of bodily functions;
- Serious dysfunction of any bodily organ or part;
- Serious disfigurement; or
- Serious jeopardy to the health of the fetus, in the case of a pregnant patient.

Emergency Services
Covered inpatient or outpatient services that are:

- Furnished by a provider qualified and appropriately licensed to furnish emergency services; and
- Needed to evaluate or stabilize an emergency medical condition.

Enrollment
The processes by which an individual who is eligible for BCCHP is enrolled in BCCHP including transfers from one participating BCBSIL plan to another.

Explanation of Payment (EOP)
The statement provided to the provider when payment is made that informs the provider which procedures are being paid.

Facility
Hospital and ancillary providers, which include, but are not limited to: Durable Medical Equipment (DME) suppliers and Skilled Nursing Facilities (SNFs).

Grievance
Expression of dissatisfaction by a member, including complaints regarding healthcare services and about any matter other than an organization determination.

Habilitation
An effort directed toward the alleviation of a disability or toward increasing a person's level of physical, mental, social or economic functioning. Habilitation may include, but is not limited to, diagnosis, evaluation, medical services, residential care, day care, special living arrangements, training, education, sheltered employment, protective services, counseling and other services.

HEDIS
Ensures that members will receive optimal preventive and quality care. Annually, the Quality Improvement Department collects, analyzes and evaluates performance measures. The results are used to evaluate our adherence to practice guidelines and improve member outcomes. The results are reported to Healthcare and Family Services in June.

Healthcare Effectiveness Data and Information Set (HEDIS)
A tool developed and maintained by the National Committee for Quality Assurance and its successor organization that is used by health plans to measure performance on dimensions of care and service in order to maintain and/or improve quality.
Hospital-Acquired Conditions
Conditions that are generally considered by CMS: (a) high cost or high volume or both, (b) result in the assignment of a case to a DRG (Diagnosis Related Group) that has a higher payment when present as a secondary diagnosis and (c) could reasonably have been prevented through the application of evidence-based guidelines. These criteria are subject to change by CMS.

Home and Community Based Services (HCBS)
A combination of standard medical services and non-medical services that allow individuals to remain in their own home or live in a community setting including, but not limited to: case management (i.e. supports and service coordination), homemaker, home health aide, personal care, adult day health services, habilitation (both day and residential) and respite care.

Home and Community Based Waiver
Waivers issued under Section 1915(c) of the Social Security Act that allow Illinois to cover home and community services and provide programs that are designed to meet the unique needs of individuals with disabilities who qualify for the level of care provided in an institution but who, with special services, may remain in their homes and communities.

Home Health Agency (HHA)
A Medicaid-certified agency which provides intermittent skilled nursing care and other therapeutic services in the member’s home when medically necessary, when members are confined to their home and when authorized by their independently contracted provider.

Homemaker Service
General non-medical support by supervised and trained homemakers. Homemakers are trained to assist members with their activities of daily living, including personal care, as well as other tasks such as laundry, shopping and cleaning.

Hospice
An organization or agency, certified by Medicaid, which is primarily engaged in providing pain relief, symptom management and supportive services to terminally ill people and their families.

Hospital
A Medicaid -certified institution licensed in the State of Illinois, which provides inpatient, outpatient, emergency, diagnostic and therapeutic services. The term “hospital” does not include a convalescent nursing home, rest facility or facility for the aged which furnishes primarily custodial care, including training in routines of daily living.

Illinois Client Enrollment Services (ICES)
The entity independently contracted by the Illinois Department of Healthcare and Family Services (IHFS) to conduct enrollment activities for potential members, including providing impartial education on health care delivery choices, providing enrollment materials, assisting with the selection of a health plan and PCP and processing requests to change health plans.ICES is also responsible for disenrollment of members.

IHFS

IHFS Contract
IHFS Contract means all the contracts between BCBSIL and IHFS pursuant to which BCBSIL and Dual Plans as applicable.
Incurred Claims PMPM for Baseline Period
Equal to all the fee for service claims incurred during the Baseline Period by Members assigned to the IPA during the Baseline Period, provided that the fee for service claims incurred by any individual Member shall be reduced to the Member Cap if they otherwise exceed the Member Cap, in aggregate, divided by the number of member months.

Incurred Claims PMPM for Performance Period
Equal to all the fee for service claims incurred during Performance Period by Members assigned to the IPA during Performance Period, provided that the fee for service claims incurred by any individual Member shall be reduced to the Member Cap if they otherwise exceed the Member Cap, in aggregate, divided by the number of member months.

Independent Physicians Association (IPA)
IPA means an Individual Practice Association, Independent Physician Association, organized Medical Group, Physician Hospital Organization or other legal entity organized to arrange for the provision of professional medical services.

Institutionalized
Residency in a nursing facility, Intermediate Care Facility Services for the Developmentally Disabled (ICF/DD) or state operated facility, but not including admission in an acute care or rehabilitation hospital setting.

Laws
Any and all applicable laws, rules, regulations, statutes, orders, and standards of the United States of America, the states or any department or agency thereof with jurisdiction over any or all of the Parties, as such laws, rules, regulations, statutes, orders and standards are adopted, amended or issued from time to time. Laws include, without limitation, the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) and its implementing regulations, including the HIPAA Privacy Rule and HIPAA Security Rule; all CMS guidance and instructions relating to the Medicaid Programs; Title VI of the Civil Rights Act of 1964; the Age Discrimination Act of 1975; the Rehabilitation Act of 1973; the Americans with Disabilities Act; the requirements applicable to individuals and entities receiving federal funds; the federal False Claims Act; any applicable state false claims statute, the federal anti-kickback statute; and the federal regulations prohibiting the offering of beneficiary inducements.

Long-Term Care (LTC) Facility or Nursing Facility (NF)
A facility that provides skilled nursing or intermediate long-term care services, whether public or private and whether organized for profit or not-for-profit, that is subject to licensure by the State of Illinois, including a county nursing home directed and maintained under Section 5-1005 of the Counties Code; and a part of a hospital in which skilled or intermediate long-term care services within the meaning of Title XVIII or XIX of the Social Security Act are provided.

Long-Term Services and Support (LTSS)
See Home and Community Based Services (HCBS)

MCO Effective Rate
The total rate PMPM as specified in the Data Book. It will be taken from the Data Book for the Performance Period to calculate the Medical Cost Percent of Premium.
Medicaid
The program of medical assistance benefits under Title XIX of the Social Security Act and various
demonstrations and waivers thereof.

Medical Cost Percent of Premium
Equal to the Base Medical Rate, from the Data Book for the Performance Period, divided by the total
MCO Effective Rate as such term is defined in the Data Book, for the Performance Period. The Medical
Cost Percent of Premium will be calculated separately for each Rate Cell, and these separate Medical
Cost Percent of Premium amounts will be averaged based on the Members assigned to the IPA during
the Performance Period. The Medical Cost Percent of Premium will be used to calculate the Absolute
Cost Threshold PMPM for Performance Period.

Medically Necessary Services
A service, supply or medicine that is reasonable and necessary for the diagnosis or treatment of illness or
injury to improve the functioning of a malformed body member, for the prevention of future disease, to
assist in the member's ability to attain, maintain, or regain functional capacity or to achieve age-
appropriate growth, or otherwise medically necessary and meets the standards of good medical practice
in the medical community, as determined by the independently contracted provider in accordance with
BCBSIL guidelines, policies or procedures.

Member
The Medicaid beneficiary, entitled to receive covered services, who has voluntarily elected to enroll in
BCCHP and whose enrollment has been confirmed by IHFS.

Member shall include the guardian where the member is an adult for whom a guardian has been named;
provided, however, that BCCHP is not obligated to cover services for a guardian who is not otherwise
eligible as a member.

Member Cap
The maximum claims amount used in calculations under this Medicaid Agreement in connection with a
single Member during a Performance Period For purposes of this agreement, the Member Cap equals
$150,000.00 during the Baseline Period and the Performance Period.

Member Communications
Materials designed to educate members on covered services and flexible benefits, policies, processes
and/or member rights. This includes pre-enrollment, post-enrollment and operational materials.

Member Centered
A BCCHP requirement that services and care is built on the member's specific preferences and needs,
delivering services with transparency, individualization, respect, linguistic and cultural competence and
dignity.

Non-Contracted Provider or Facility
Any professional person, organization, health facility, hospital or other person or institution licensed
and/or certified by the State of Illinois or Medicaid to deliver or furnish health care services and also being
neither employed, owned, operated by, nor under contract with BCBSIL to deliver covered services to
BCCHP members.

Older Adult
An individual who is 65 years of age or older and who is eligible for Medicaid.
**Organization Determination**

Any determination made by BCBSIL with respect to any treatment or services that may be covered by BCCHP, including, but not limited to:

- Payment for temporarily out-of-area renal dialysis services, emergency services, post-stabilization care or urgently needed services;
- Payment for any other health services furnished by a Provider that the member believes are covered under Medicaid, or, if not covered under Medicaid, should have been furnished, arranged for, or reimbursed by BCBSIL;
- BCBSIL’s refusal to provide or pay for services, in whole or in part, including the type or level of services, that the member believes should be furnished or arranged for by BCBSIL;
- Reduction, or early discontinuation of a previously authorized ongoing course of treatment; and/or
- Failure of BCBSIL to approve, furnish, arrange for or provide payment for health care services in a timely manner or to provide the member with timely notice of an adverse determination, such that a delay would adversely affect the health of the member.

**Performance Period**

Defined as the twelve (12) month period beginning on the Effective Date, or any consecutive twelve (12) month period thereafter during which this Agreement is in effect.

**Personal Assistant**

Individuals who provide personal care to a member when it has been determined by the case manager that the member has the ability to supervise the personal care provider.

**Personal Care**

Assistance with meals, dressing, movement, bathing or other personal needs or maintenance or general supervision and oversight of the physical and mental well-being of a member.

**Personal Emergency Response System (PERS)**

An electronic device that enables a member at high risk of institutionalization to secure help in an emergency.

**Post-stabilization Care Services**

Post-stabilization care services are covered services defined under the BCCHP plan that generally are:

- Related to an emergency medical condition;
- Provided after a member is stabilized; and
- Provided to maintain the stabilized condition or under certain circumstances to improve or resolve the member’s condition.

**Primary Care Physician (PCP)**

Any physician including a WHCP, who within his or her scope of practice and in accordance with State certification requirements or State licensure requirements, is responsible for providing all preventive and primary care services to his or her assigned Members.

**Provider**

Any physician or practitioner, to include, but not limited to, a physician, physical therapist, psychologist, hospital facility, health care facility, laboratory and any other provider of medical services, licensed in accordance with all applicable Laws.
Quality Improvement Organization (QIO)
Organizations comprising practicing doctors and other health care experts under contract to the federal government to monitor and improve the care given to Medicaid enrollees. QIOs review complaints raised by enrollees about the quality of care provided by physicians, inpatient hospitals, hospital outpatient departments, hospital emergency rooms, SNFs, HHAs, Medicaid health plans and ambulatory surgical centers. The QIOs also review continued stay denials for enrollees receiving care in acute inpatient hospital facilities as well as coverage terminations in SNFs, HHAs and Comprehensive Outpatient Rehabilitation Facilities (CORFs).

Quality of Care Issue
A quality of care complaint may be filed through the BCCHP grievance process and/or a Quality Improvement Organization (QIO). A QIO must determine whether the quality of services (including both inpatient and outpatient services) provided meets professionally recognized standards of health care, including whether appropriate health care services have been provided and whether services have been provided in appropriate settings.

Rate Cell
(Defined in the Data Book) refers to rate cells for different populations set by the State Actuary. Each rate cell contains rates paid to the MCO by the state based on the demographics of the members in the population managed by the MCO.

Reconsideration
A BCCHP member's first step in the appeal process after an adverse organization determination. BCBSIL or an independent review entity may re-evaluate an adverse organization determination, the findings upon which it was based and any other evidence submitted or obtained.

Representative
An individual appointed by a BCCHP member or other party, or authorized under state or other applicable law, to act on behalf of the member or other party involved in an appeal or grievance. Unless otherwise stated, the representative will have all of the rights and responsibilities of the member or party in obtaining an organization determination, filing a grievance or in dealing with any of the levels of the appeal process, subject to the applicable rules described at 42 CFR Part 405.

Savings PMPM for Absolute Performance
The savings that the IPA may be eligible for due to absolute performance. It is calculated as follows: 
((Absolute Cost Threshold PMPM for Performance Period) minus [Cost of Care PMPM for Performance Period]).

Savings PMPM for Performance Improvement
The savings that the IPA may be eligible for due to performance improvement. It is calculated as Benchmark Cost PMPM for Performance Period minus the Cost of Care PMPM for Performance Period. The Savings PMPM for Performance Period will be multiplied by the Shared Savings Percentage for Performance Period to determine the Shared Savings Payment PMPM for Performance Improvement.

Shared Savings Payment PMPM for Absolute Performance
Refers to the savings the IPA may be eligible for if the IPA's Cost of Care PMPM for Performance Period falls below the Absolute Cost Threshold PMPM for Performance Period. It will be calculated as Savings PMPM for Absolute Performance multiplied by [50%].
Shared Savings Payment PMPM for Performance Improvement
Is calculated as follows: [Savings PMPM for Performance Period] multiplied by [IPA's Shared Savings Percentage for Performance Period]. The Shared Savings Payment PMPM for Performance Improvement will then be multiplied by the number of eligible months to calculate the Total Shared Savings Payment for Performance Improvement.

Shared Savings Percentage for Performance Period
The percentage of achieved savings for performance improvement that BCBSIL will share with the IPA. If the IPA’s Savings PMPM for Performance Period, divided by the Benchmark Cost PMPM for Performance Period, is greater than zero percent but is less than 3%, the Shared Savings / Loss Percentage for Performance Period is 20%. If the IPA’s Savings PMPM for Performance Period, divided by the Benchmark Cost PMPM for Performance Period, is 3.00% or greater, the Shared Savings Percentage for Performance Period is 30%.

Serious Reportable Adverse Events (SRAEs)
BCBSIL will not cover a particular surgical or other invasive procedure to treat a particular medical condition when the provider erroneously performs: 1) a different procedure altogether; 2) the correct procedure but on the wrong body part; or 3) the correct procedure but on the wrong patient. BCBSIL will also not cover hospitalizations and other services related to these non-covered procedures.

Service Area
A geographic area approved by HFS within which an eligible individual may enroll in a participating BCBSIL plan.

Subcontractor
See Downstream Entity

Supportive Living Facility (SLF)
Residential apartment-style housing (assisted living) setting in Illinois that is certified by the Department of Healthcare and Family Services that provides or coordinates flexible personal care services, twenty-four (24) hour supervision and assistance (scheduled and unscheduled), activities and health related services with a service program and physical environment designed to minimize the need for residents to move within or from the setting to accommodate changing needs; has an organizational mission, service programs and physical environment designed to maximize residents’ dignity, autonomy, privacy and independence; and encourages family and community involvement. Services include: temporary nursing care, social/recreational programming, health promotion and exercise, medication oversight, ancillary services, 24-hour response/security, personal care, laundry, housekeeping and maintenance.

Total Shared Savings Payment for Absolute Performance
Calculated as the Shared Savings Payment PMPM for Absolute Performance, multiplied by the number of eligible member months.

Total Shared Savings Payment for Performance Improvement
Calculated as the Shared Savings Payment PMPM for Performance Improvement, multiplied by the number of eligible member months.

Urgently Needed Services
Covered services provided that are not emergency services, as defined above, but that are medically necessary and immediately required as a result of an unforeseen illness, injury or condition.

Women’s Health Care Provider (WHCP)
Any physician specializing by certification or training in obstetrics, gynecology or family practice.
