Introducing Your Retiree Medicare Options

Now you can have the freedom and security of medical and prescription drug coverage that goes wherever you go. Your HCSC group retiree Medicare plan options include **BlueSecure** and **Blue Cross Group MedicareRxSM**. These two plans work together with Original Medicare to cover your medical, hospital and prescription drug costs.

We're here to help you understand the benefits of each plan, how to get started and what to expect after you enroll.

Cover the out-of-pocket medical costs that Medicare doesn't

When you enroll in Medicare, your coverage is divided into parts. Original Medicare Part A and Part B cover about 80% of your hospital and medical costs. **BlueSecure** is group retiree coverage that pays secondary to Medicare. It fills some of the gaps for medical and hospital care that Medicare doesn't cover, like coinsurance, copays and deductibles. You can see any doctor who accepts Medicare, and you never need a referral to see a specialist. While it's not required, members who don't have one are encouraged to find a primary care provider (PCP). A PCP can get to know you over time and understand your unique health needs. This relationship can improve health outcomes and reduce care costs. **Blue Cross Group MedicareRx** is a Medicare Part D plan that helps to cover the cost of outpatient prescription drugs. With these two plans, you're covered anywhere you travel in the U.S.

Important!

- You must be a HCSC retiree enrolled in Medicare Part A and Part B. If you haven't signed up yet, contact your local Social Security office or go to **www.ssa.gov** to enroll online.
- You must continue to pay any Part A or Part B premiums, Income-Related Monthly Adjustment Amount (IRMAA) surcharges and late enrollment penalties as required by the Federal Government.
- Medicare must approve your enrollment in this plan before you are officially a member. This generally takes about 10 business days.
- Review all the items in this packet to learn about your group retiree plan.
- Follow the enrollment instructions provided by the Corporate Benefits Team.

How Does BlueSecure Work?

BlueSecure is a group retiree supplemental medical plan that works with Medicare Parts A and B.

Medicare will cover its share of your doctor and hospital bills first. BlueSecure will then help cover the remaining deductible and coinsurance.

Each year, Medicare can change the copayments and deductibles it will cover. With your HCSC-sponsored plan, BlueSecure adjusts to cover the remaining deductible and coinsurance. Your BlueSecure plan will renew every year as long as the plan is available and you pay your plan and Part B premiums. See the plan documents in this enrollment kit for details about your coverage and any out-of-pocket costs.

Here's what each plan type covers.

† Covers 21st through 100th day of skilled nursing care

Part D rounds out your coverage.

Blue Cross Group MedicareRx is your Part D prescription drug plan. It covers common outpatient medications, like those used to treat blood pressure, cholesterol, depression and arthritis. Your HCSC-sponsored plan has copays for your Part D prescriptions. And there is a deductible to meet before benefits start.

Due to Medicare reforms, the most out-of-pocket costs you'll pay in 2026 for Part D drugs is \$2,100. Each year, annual limits will be adjusted based on inflation. This cap does not apply to out-of-pocket spending on Part B drugs. Your monthly plan and Part B premiums are not included in your out-of-pocket costs. Review the Summary of Benefits to understand your costs.

List of Covered Drugs (Formulary)

Within the formulary, you will see that prescription drugs are placed into tiers. The costs for drugs in each tier are generally different. Tier 1 includes the drugs prescribed for common conditions and usually cost the least.

Transition Benefit

During your first 90 days of coverage, you may be able to fill a one-month supply of Part D eligible, non-formulary drugs or drugs that have restrictions. You and your provider will be alerted via mail of the transition fill and the requirements needed to continue receiving your drug. Such requirements include your provider submitting a formulary exception by calling the number on your new member ID card or filling out the formulary exception form found on www.myprime.com. If the formulary exception is approved, you will pay the non-preferred drug tier cost-share.

Insulin and Vaccine Costs

Insulin: You won't pay more than \$35 for a one-month supply of each covered insulin product. It doesn't matter what cost-sharing tier it's on.

Vaccines: Your plan covers most Part D vaccines at no cost to you. The following vaccines are covered under Medicare Part D: Shingles, Tetanus/diphtheria (Td), Tetanus, diphtheria, and pertussis (whooping cough) (Tdap), Hepatitis A, Hepatitis B and other vaccines recommended by Advisory Committee on Immunization Practices.

You don't need to meet any required deductible for these items.

Managing your Medications

Your prescription drug plan includes programs designed to encourage safe, cost-effective and appropriate use of medications. These include prior authorization, step therapy and quantity limits. If a drug requires one or more of these programs, it will be noted in the formulary.

Medicare Prescription Payment Plan

The Medicare Prescription Payment Plan is a payment option that helps you manage your budget when it comes to out-of-pocket drug costs. It spreads costs across monthly payments throughout the plan year, instead of you paying all at once at the pharmacy. The payment option might help you manage your expenses, it doesn't save you money or lower your drug costs. While the program is for anyone with Part D, it might not be right for everyone.

Here's what you can expect after you enroll

BlueSecure

While Medicare doesn't need to approve your enrollment in this plan, you must be an HCSC retiree enrolled in Medicare Part A and Part B to use it. You will receive your BlueSecure member ID card after your enrollment is complete.

Blue Cross Group MedicareRx

Medicare must approve your enrollment for Blue Cross Group MedicareRx before you are officially a member. Within 10–14 days of receiving your enrollment, we'll send you an acknowledgment letter. After your Part D enrollment is approved by Medicare, we'll send you a confirmation letter, followed by your member ID card for Blue Cross Group MedicareRx.

You will have two new plan ID cards, *plus* your red, white and blue Medicare card.

- Be sure to take your red, white and blue Medicare card and your new BlueSecure card to visits with your providers. Use your ID card for Blue Cross Group MedicareRx at the pharmacy.
- Always show your member ID card when you receive care. Information on the ID card helps the provider file your claim with us.

Your plan ID cards will have this information:

- | | |
|--|---|
| • Your name | • Plan number
This number is used by the plan only. |
| • The name of your group retiree Medicare plan | • Customer service phone number |
| • Member ID number
This number is unique to you. | • Our website |

If your Part D ID card hasn't come in the mail by your plan effective date, you can still use your benefits. Just show your Part D confirmation letter as proof of insurance at the pharmacy.

You will receive a Welcome Guide in the mail with important information about your new medical and prescription drug benefits.

Blue Cross and Blue Shield of Illinois is honored to be entrusted with your care. We are committed to providing you with outstanding service, expertise and convenience.
